AND MINDEN RECORDER

Vol. 96

No. 41

"The voice of the Highlands"

Wednesday, May 31, 1978

16 Pages

20 cents

Haliburton County residents have flocked to the water in the past few days to experience their first swims of the season. This was the scene at Rotary Beach in Haliburton. Monday night as dozens of children and parents enjoyed an after supper swim to escape the heat.

Expected to cost between \$260,000 and \$300,000

Minden curlers plan new rink

Anson, Hindon and Minden council last week approved in principle a proposal from the Minden curling club for the construction of a new curling facility in the village. The proposed building would be built adjacent to the Minden arena, and would use the existing arena wall on one side.

pected to cost between \$260,000 and \$300,000. The proposed building would have three levels, with shower and locker facilities, a kitchen and dining area, and a lounge viewing area, as well as four sheets of ice. Jackson said the committee anticipates that \$180,000 to \$200,000 in grant money might be made available for the project. Donated labour, and existing club money could be used for the project, leaving as little as \$50,000 to be raised.

The club presently uses two ice surfaces in a quonset hut structure on municipal

park land. If the new facility is built, the existing structure is expected to be used by the Minden Agricultural Society, Jackson said.

Jackson said the building committee proposal will be taken back to the club executives and will then be submitted to the club members for

approval. That approval could come within the next three or four weeks, Jackson said.

The building committee hopes work on a new facility can begin as early as July or August, with completion by January or February.

Declining enrolment may cost jobs

A continuing trend toward declining enrolment could result in a loss of some 320 students in Haliburton County schools by 1981, according to figures released at a

meeting of the Haliburton County Board of Education last Tuesday. The figures, compiled by the Board's director of education, J.D. Hodgson, show 1977 enrol-

ment totalled 1486. By 1981, that number may be as low as 1166, Hodgson's report indicates.

The figures, based on census information, county birth statistics, and present numbers of students in public school grades, are intended to provide the board with a guideline, and the figures represent the lowest possible enrolment, Hodgson said.

He stressed that no allowance for growth in the county was made in compiling the statistics. But the director of education said he felt the

figures were "a fairly realistic projection."

"In the next three years, we'll have to reduce our teaching force in the elementary schools by ten or a dozen teachers," Hodgson said. "I think attrition (teachers leaving or retiring) will take care of it in the secondary schools."

On the positive side, Hodgson said, declining enrolment could result in savings to taxpayers since more than 70 per cent of the board's annual budget is

Cont'd. page 3

Stanhope budget up only slightly over '77

Stanhope Township residents will be facing an overall increase of 2.29 per cent in municipal taxes this year, as a result of the new budget for 1978.

School residential costs will increase 12.47 per cent and county residential millrates will increase 8.89 per cent overall.

Actual 1977 expenditures

in the municipality were \$151,098, an increase of more than \$21,000 over the estimate of \$129,650. The 1978 estimate is \$132,685.

Gerald Bain, clerk for Stanhope, stressed that much of the difference between these two figures was due to government loans and grants included in the costs of the '77

Cont'd. page 2

Whew! It's been hot!

Cooler temperatures are coming, weatherman says

Haliburton County residents who have been sweltering in a hot office or on a hot beach this past week can take heart - the weatherman says temperatures are going to become a little more tolerable.

Ray La Roche of Environment Canada, in Peterborough, also says that even though temperatures have been unusually high for this time of the year, they have not been record-breaking. In fact, at the same time last year, temperatures were also higher than average.

But over the next few days, the heat wave should break and the weather will become unsettled with occasional chances of showers. Thursday and Friday should give us highs of 25 and lows of 12 during the nights.

For the weekend, however, the temperatures

Meeting will be sought with County Council

Planning council to urge consolidation

Consolidation of social services in Haliburton could result in cost savings, as well as improved social services for county residents, according to Bert Costello, director of social services for Victoria County.

Speaking at a meeting of the Haliburton Co. Social Planning Council in Carnarvon, Thursday, Costello said the provincial government favours consolidation of social services at the county level. He said Haliburton is one of only five counties in the province which have resisted consolidation.

Social services in Victoria County came under county wide administration in 1967, Costello said. At the time the move was made, there "were a couple of county councillors who were against it," but he said the present council is unanimous in their approval of the consolidated system.

In Haliburton County, welfare payments are administered at the municipal or township level by clerk-treasurers or bylaw enforcement officers. Few social services are available, and individual needing special counselling must often travel long distances to seek it.

Haliburton County clerk, Winn Lahay, said Tuesday that county council has discussed the idea of consolidation in the past, but has rejected it, partially because of a fear of increased costs under a central administration and partly because of a feeling among councillors that the system of welfare payments is working adequately at present. Council felt the system "could become a giant" under consolidation, the county clerk said.

Costello presented rough dollar estimates at the Carnarvon meeting which showed costs could remain at close to their present level, while

Year round fine arts program planned

The county of Haliburton may soon have a year-round fine arts program which would offer a film-rental service, craft shows, theatre and other activities.

The services will be offered by the Haliburton Highlands Guild of Fine Arts. Carole Finn, one of the directors of the project, says plans are under way to organize and establish the services. "At present, we're exploring things to find out exactly what is happening and what will be happening," she said.

The purpose of the project will be to bring art and craft shows into the community in addition to providing the public with specific services such as student activities and a picture-loan service.

Cont'd. page 2

services would improve, under a central welfare administration office for the county.

Actual per capita costs for welfare assistance in Haliburton County were 36 cents in April, Costello said, while in Victoria County, the per capita cost in April was 33 cents, including administration costs.

The provincial government pays a 50 per cent subsidy on administration costs for wel-

fare programs, Costello said.

One member of the audience said there is an "incredible bias" on the part of some municipal clerks against welfare recipients, and pointed out that professionals administering the payment of welfare benefits would have a different attitude.

Social planning council chairman, Dave Woodall, said it was unlikely county council would move toward

consolidation unless documents could be produced to show that the benefits of a central welfare administration and consolidated social services would outweigh any cost increases that might be incurred.

A committee was formed to investigate the benefits of consolidation, and to prepare a proposal which is expected to be taken to county council in the next few months.

Little appointed to B of E

Tom Little, an unsuccessful candidate for the Haliburton County Board of Education in 1976, was appointed to the board last Tuesday, following the resignation of Scotty LaRue. LaRue, along with Jack Brohm, recently purchased the school bussing operation of Travelways Bus Lines, and the resignation came as a result of conflict of interest stemming from the purchase.

LaRue was himself appointed to the seat in Decem-

ber, following the resignation of Rick Poole. Chairman of the board, who left the Haliburton area for a job in Winnipeg.

Little was present at the board's meeting last week, and told the board he had polled more than 400 votes in

his unsuccessful bid for election in 1976.

Little, who is a resident of Haliburton, is married and has one child.

He will hold the seat until November when the present board's two year term in office expires.

Mark Lardner was still running hard at the finish of the 13 mile half marathon race in the Haliburton area Sunday afternoon. The race drew 14 entrants, 9 of whom managed to complete the full distance.

Stanhope reeve stepping down, may run in Minden

Sinclair Nesbitt, reeve of Stanhope for the past eight years, will not be seeking the job for a fifth term when municipal elections are held in November. Nesbitt made the announcement last week at a meeting of the Maple Lake Cottagers Association.

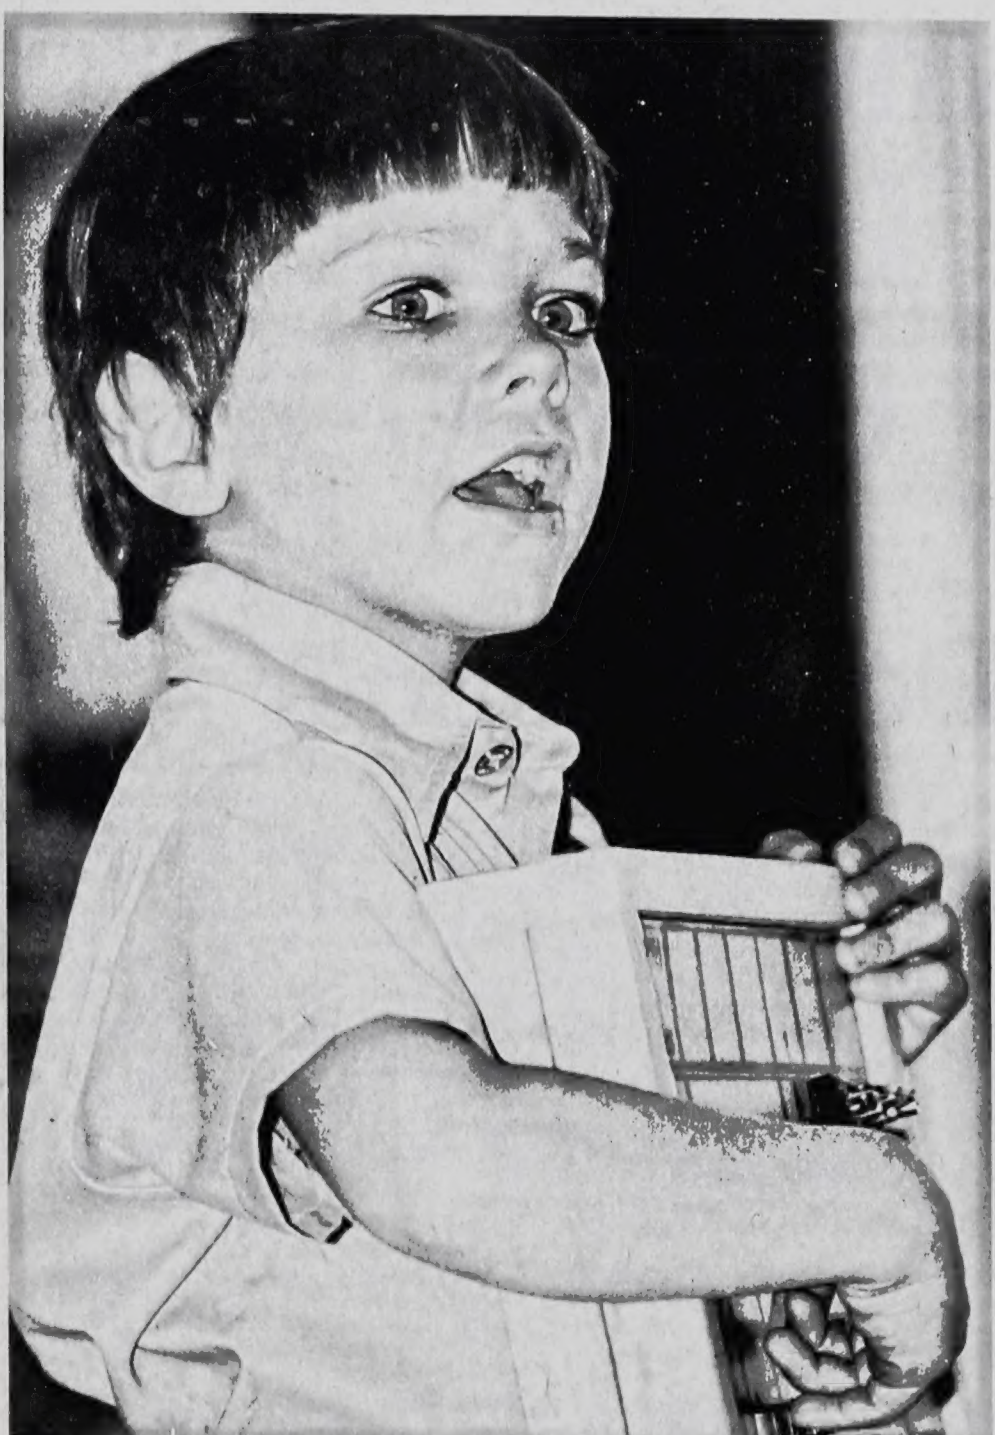

"I'm a mountain climber," Nesbitt said in an interview Monday, "and there isn't a whole lot more to be done in Stanhope."

During the terms in which he has headed Stanhope

council, Nesbitt has seen the township acquire a new library, fire hall and township garage. In addition, the roads department has been greatly expanded.

Though he has decided to step down from the job of reeve in Stanhope, Nesbitt may not be giving up municipal politics.

"I'll take a long look at it here locally," he said. "I'll be available if anybody wants me in Minden."

Kelly Youngdale, a grade 1 student at Victoria Street School operated the controls of the time machine which took the audience back in time to the age of dinosaurs. The play, written by the students, was performed for an audience of parents and other pupils on Wednesday.

A Harcourt youth was taken to Haliburton Hospital Thursday night following the crash of a pick-up truck on the outskirts of Haliburton village. The truck, driven by Terry Sutherland, of Minden, came to rest in about a metre of water in Head Lake.

Several injured in area vehicle crashes

A Minden man was charged with impaired driving following a single vehicle accident that sent a Harcourt youth to hospital.

Minden OPP say a 1976 pick-up, driven by Terry Sutherland, 22, of Minden, was westbound on Highway 121 just outside of Haliburton when the vehicle went out of control, entered the north ditch, and rolled over. The truck came to rest in Head Lake, in about a meter of water.

Dwayne Thompson, 17, of Harcourt, a passenger in the truck, suffered an apparent

broken arm, and was taken to Haliburton Red Cross Hospital.

Damage to the truck was estimated at \$2,500.

Two people suffered minor injuries in a single vehicle crash Sunday evening.

Minden OPP say Alfred Treen, 46, of Whitby, was westbound on Highway 121 east of Minden, when the 1972 car he was driving entered the south ditch, striking a hydro pole and a tree. Treen suffered minor

injuries and was taken to Minden hospital. A passenger, Clara Treen, age 45, also suffered minor injuries in the mishap.

Alfred Treen was charged with careless driving. Damage to the car was estimated

at \$1,000.

In yet another single vehicle crash, a Gormley man suffered minimal injuries, early Saturday morning when the 1977 pick-up truck he was driving went out of control on Highway 35 south of Minden.

OPP say Matthew Crane, 18, was southbound when he entered the west ditch and struck a rock cut.

Damage to the pick-up was estimated at \$800. A single vehicle crash on Cont'd. page 3

Guild of Fine Arts plans year round program for the Arts

from page 1
The film rental service is expected to start sometime in July. Persons who rent the films will have the option of either buying or just renting the film for as long as they want," says Finn.

Committees will need to be established in each community where the programs will be offered so the physical work will be up to each individual community.

Members of the present committees are now preparing reports on the feasibility

of music, theatre, craft shows and fine arts shows and student related activity programs. An advisor is assisting the Guild by phoning around Toronto and gathering information which may help in the project.

When asked whether she thought there was an interest for such a program in the community, Finn said that "people are more receptive to it now. It's always a good selling program."

She said the Guild had tried a similar program about 10

years ago, but there were not enough people interested to keep it going permanently. "We have to keep the project portable and go from one community to another, and not keep to one area," she

said. The Guild is also attempting to become a member of the Ontario Association of Art Galleries. However, Finn says, they would not be able to become a full member

since no one in the Guild is a paid art director. There will be a meeting of the Guild on June 21, at 7:30 P.M., at the Lakeview Centre and anyone interested in the project is urged to attend.

Two youths charged with theft

Two 16-year-old youths were charged with theft under \$200 and with possession of stolen property valued at more than \$200, following an incident in Haliburton last Tuesday morning.

Minden OPP report two persons removed \$50 from the till of Stan's Texaco at

about 8:15 a.m., Tuesday, and then left the area.

A search for a car seen leaving the gas station resulted in the discovery of the car stuck in a ditch.

The vehicle, a 1978 stationwagon, had been reported stolen in Uxbridge that same morning.

Charged were Robert Scott Pascoe, of R.R. 1, Sundance, and Michael Evans Keirstead of no fixed address.

The two were charged with theft under \$200, possession of stolen property under \$200, and with possession of stolen property valued at more than \$200.

OPP report

During the week of May 22 to May 28, the Minden detachment of the Ontario Provincial Police report the following activity:

During this period the staff investigated 13 reportable and three non-reportable motor vehicle collisions. There were 103 general occurrences. Five break-ins were reported. Five persons were charged with liquor violations and three persons were charged with impaired driving.

Thirteen persons were charged with boating violations. Two compassionate messages were delivered.

Travel agency opening

Haliburton will be getting its own travel agency in the near future.

Les Hughes, who previously owned the Highland Shoe and Tack store in downtown Haliburton, is selling out and moving into his office beside Arrow TV. Hughes is now an agent for Simpsons Department Stores, Victoria

Cleaners and the Travelways Bus Company.

He is a licensed travel agent and will be providing the community with bus and airline ticket service.

Buses which used to stop on the main street will now discharge and load passengers at the office driveway next to Arrow TV.

Correction

An error appeared in an article on page one of last week's Echo concerning an incident at the Rockcliffe Hotel. OPP Constable Wim Magee, has supplied the following correction of information supplied to the Echo by the Minden OPP.

The person charged with assault causing bodily harm,

following an incident May 20 at the Rockcliffe Hotel, in Minden, should have been Graham Gordon, age 19, of Rexdale, rather than Gordon Graham. The name confusion resulted from an alias being provided to the OPP. The OPP regret any inconvenience caused by the use of the improper name.

Stanhope budget

from page 1
actual expenditures. He added that the reason for the increase in education costs is a cutback by the provincial government in these grants to the various municipalities.

B of E announces change in school period

The Haliburton County Board of Education has been considering the attendance rules regarding the period from 3:05 - 3:30 P.M., known as the Extra-Curricular period. New rules have been devised in this regard and it is important that parents note the conditions as described below; Doug Hodgson, director of education for the Haliburton Board of Education says.

Buses leave the high school at 3:35 P.M. and students must board the bus at the high school only. The activity period from 3:05 to 3:30 P.M. is used by students for: extra help from teachers, clubs, student meetings, intramural sports, etc. Students are encouraged to participate in these various activities and use the period of time to their advantage. However, if a student must leave the school site during this period of time, he/she will not be supervised and will be responsible for his/her own welfare.

It is very difficult to operate such a period in a secondary school and the members of the Board hope that the parents of the students in the school will actively support the various activities and encourage their young people to participate.

13 miles of running - you've got to be in shape

Fourteen runners showed up Sunday afternoon at Haliburton Highlands Secondary School for a thirteen mile half marathon race along Hwy. 519 to

Donald. Seven of the runners managed to complete the distance in under two hours.

Despite oppressive heat that left bystanders panting, nine of the fourteen runners who competed in a 13 mile "half marathon" race Sunday, managed to complete the course, seven of them in less than two hours.

The race, which was organized by Haliburton physicians Blair Pierce, Bob Heyes and Karl Hartwick, attracted runners from Haliburton, West Guilford, Irondale, Orillia, Minden, Carnarvon and Oakville. A three mile "fun run" for less experienced runners drew only two participants.

The course began at Haliburton Highlands Secondary School, and extended along Hwy. 519 to a mile and a half past Donald, where the runners turned around and retraced their route. Several water stops along the way refreshed the runners, some of whom found the distance impossible to complete under sunny skies and temperatures that rose well into the 80's.

First across the finish line was Blair Pierce in a time of 92 minutes. Second was Bob Heyes in 94 minutes, followed by Alan Cooper, the first student to finish the race, who came in in 98 minutes.

Other finishers were J. Fecht of Irondale, 101 min.; K. Hartwick, 102 min.; M. Lardner, 112 min.; P. Madden, 114 min.; J. Stuart, of Orillia in 131 min.; and J. Baily of Haliburton in 134 min.

Those who started the race but could not finish were A. Bachom, Oakville, 12 1/2 miles; J. Tomlinson, Carnarvon, 12 miles; H. Roodenberg Minden, 8 miles; B. Stevens, West Guilford, 4 miles, and B. Cooper, also of West Guilford, 4 miles.

Running the three mile leg were Ken Rydman and Frank Powers.

Gordon Wolsey, left, manned a water stop at the halfway point of the half marathon race Sunday. Competitor Art Bachom took advantage of the stop

to cool off his head before continuing on the second leg of the race.

Stanhope withdraws appeal

Stanhope Township council has withdrawn its application for a review of the 1978 county school board levy. The decision came officially at council's regular May meeting.

The move was not made without protest, however. Council passed a resolution that will be sent to the Ontario Cabinet, noting that the Ontario Municipal Board, while acting as a "quasi judicial body" seems to be supporting provincial policy in denying appeals against school board levies. "This opinion" the Stanhope resolution goes on to say, "results from recent decisions received with respect to the county and the school board apportionments made by (Stanhope Township) whereby (Stanhope) is suffering financial

loss due to market value assessment not being implemented or considered.

In other business, council authorized the 414 squadron of the Canadian Armed Forces to provide a fly-past by T-33 jet at the Stanhope fly-in to be held June 11. Council noted it understood the minimum altitude of the aircraft will be 300 feet.

Council gave clerk, Gerald Bain, permission to authorize the free installation of smoke detectors by the Fire Department members in the existing homes of senior citizens, subject to the detectors being purchased by the home owners. Those who qualify can call the Township office.

Council voted to appoint Barbara Nangle, David McKinlay, Toos Ried, John Barclay, Alex Stevenson,

Janice Barnes, Ray Woodward, Elvin Johnson and Jim Harrison, to the Stanhope Recreation Committee for the balance of the 1978 year.

Council acknowledged receipt of a proposed Development Agreement from Deane Ewart, Barrister and Solicitor, with respect to the proposed Subdivision on parts 29 and 30, Township of Stanhope. Council noted it wishes to further review the proposed agreement and also obtain legal opinion on the document prior to further discussion on the matter.

Mrs. John Barclay was appointed to the Minden Red Cross Hospital Society. James Moore was authorized to attend the Ontario Association of Property Standards Officers Seminar to be held May 17, 1978 at Sir Sandford Fleming College, Peterborough.

Council confirmed the remuneration of council members for 1978 will remain the same as the 1977 rates.

The 1978 general estimated budget of \$132,685 was accepted.

Council authorized the purchase of road culverts from E.S. Hubbel and Sons Ltd. as per quoted prices to the Provisional County of Haliburton, subject to approval of the Ministry of Transportation and Communications.

The township will seek to obtain approval from the Ministry of Transportation and Communications for the topping of the Airport Road and the North Shore Road.

Council accepted the quote from Canam Oil Services for

the supply and application of approximately 42,000 gallons of road oil at a price of 32.2 cents per imperial gallon, subject to approval of the Ministry of Transportation and Communications.

The tender quote of \$90.72 per ton, for the supply of 10 ton of Bagged Calcium Chloride, from Allied Chemical Ltd., was accepted as was quoted delivery price of \$18.00 per ton from Bill Davidson, subject to approval of the Ministry of Transportation and Communications.

Council accepted from the Ministry of Transportation and Communications, property located on part lot 31, conc. A, Township of Stanhope, more particularly described as parts 1 and 3 on Plan 2651-85 and Part 1 on Plan 2651-86 and the clerk authorized and directed to proceed with registration of related deed.

Council also authorized the advertising of a proposed original allowance for road closing on Part lot 31, conc. A, more particularly described as parts 1 and 2 in a Plan of Survey prepared by H. Curry Bishop, O.L.S., and dated February 4, 1977.

A resolution was passed to "accept the kind offer of the Minden and District Horticultural Society" to provide and maintain a flower bed in front of the Municipal Office for the cost of the plants and the right to have a small credit sign in the bed.

Payments were approved under the Canada Works Program, Phase II, in the amount of \$19,460.09.

Accidents

from page 2
Highway 519, near Haliburton, Sunday afternoon, resulted in \$1,500 damage to a 1976 pick-up truck.

Diane Gervais, 18, of R.R. 2, Haliburton, was eastbound on Highway 519 when she lost control of the truck and it entered the south ditch, striking a tree.

Concrete

from page 1
have to warrant it." "We're keeping our options open" he said and "we hope we can get into the manufacturing."

Work on the office and garage are expected to begin once severance procedures have been completed. It is expected that at least one person from the area will be employed in the retail operation.

Enrolment

from page 1
teacher salaries. He added, however, that inflation could negate any savings from a reduction in the number of teachers in the system.

The present pupil-teacher ratio in Haliburton schools is 20 to one, Hodgson said, below the provincial average of 23 to one.

Declining enrolment is not expected to result in a reduction in that ratio, Hodgson said.

Livestock producers plan test plots for various crops in County

The Haliburton County Livestock Producer's Assoc. will be sponsoring six demonstration plots around the county to determine what kinds of crops can be grown most effectively, and for highest yields, on the county's soil.

Bud Kirchner, president of the association, said various crops will be grown on farms in the county to see if certain types of vegetation can be successfully cultivated by new techniques of growing and fertilization.

"We hope to show that we can grow certain crops as well as some grown in more southerly regions," he said.

One of the test plots will consist of a corn field to test varieties of corn under the type of temperatures predominant in the county.

Other test fields will show the effects of various fertilizers on crops, the effectiveness of lime in reducing the acid levels in the soil, the possibility of growing blueberries commercially in the area, and how to grow certain types of produce on rough land.

The plots will be examined in detail in June to see what progress has been made and if effects of soil additives are beginning to show.

Haliburton physicians Bob Heyes and Blair Pierce led from start to finish of Sunday's thirteen mile half marathon road race. Pierce finished first with

a time of 92 minutes, followed by Heyes who completed the distance in 94 minutes.

A proposal worth considering

The Haliburton County Social Planning Council last Thursday discussed the possibility of consolidating social services in the county, under a central office. The group intends to make a presentation to county council in the near future, in hopes of demonstrating the benefits of consolidation. County council should give that presentation some serious thought.

At present, social services in the county are less than adequate. Welfare is administered by municipal clerks and bylaw enforcement officers who may be well meaning in their efforts, but who lack sufficient training to deal effectively with the multitude of problems people face.

The prevailing attitude in the county has always been that local people can take care of other local people in need. It is an admirable attitude, but it's one which is no longer sufficient. More than well meaning charity is needed to deal with the complex reality of social problems.

Under consolidation, a central welfare administration office would be set up, with a full time staff of one or two people visiting individual welfare recipients, and providing advice and counselling.

Handing out welfare cheques at the municipal level, as is now done, is a simple matter. And in many cases, it may be essentially harmless. But handing out cheques doesn't get to the heart of the problem, and it doesn't help people with problems work toward economic self sufficiency and social respectability. Trained welfare administrators could spot problems that needed special attention, and could see that expert counselling in the proper area was provided, through other social service agencies.

The Social Planning Council is made up of concerned individuals, many of whom have a great deal of training and expertise in social work.

County council should take their proposal seriously when it comes.

A double edge

Figures released last week by J.D. Hodgson, director of education for the Haliburton County school board, reveal a startling trend toward declining enrolment in county schools. Though the figures in Hodgson's report are not absolutes, they are an educated guess based on census figures, birth statistics and known dropout rates throughout the school system. This year there were 1,486 students attending Haliburton County schools. By 1981, if Hodgson's figures are correct, the number of students will have fallen to 1,166.

In other areas of the province, notably in Toronto, the problems created by declining enrolment have come to a head. In North York, a large number of teachers who are currently working will not have their contracts renewed. There are not enough students to warrant keeping the teachers, and class sizes are not being reduced, primarily for economic reasons.

In Haliburton County, the effects of declining enrolment have so far been little felt. The natural decline in student numbers, when it has occurred, has been matched by teacher retirements, or by the number of teachers who leave their jobs in Haliburton County for one reason or another.

Now, however, the situation is becoming more serious. If the projection released by Hodgson is accurate, Haliburton County will have 320 fewer students in its school system by 1981 than it has this year. That means fewer teachers will be needed. Hodgson said the board anticipates as many as 12 fewer teachers will be needed to maintain the same ratio of pupils to teachers in 1981 that exists in the system this year.

Declining enrolment is a problem with a double edge. Reducing the number of teachers, if it must be done, will inevitably cause hardship and hard feelings. Programs may have to be phased out as fewer and fewer students choose to take them, a move which would inevitably result in a reduction in the quality and variety of education in the County.

Declining enrolment could also be used to advantage if it resulted in smaller class sizes and a greater degree of individual attention to students in the classroom and outside it.

Letting teachers go as enrolment falls makes sense under the prevailing conditions of a depressed economy. It may not, however, be in the best interest of a quality educational system.

Declining enrolment is a fact. Whether it results in a stronger or weaker educational system is a matter for the taxpayers, through the Ministry of Education and through the local board of education, to decide. It's a decision that will have to be made in the very near future.

The "Highlander's" bell

Letters to the Editor

Editor's Note: The following is a copy of a letter sent to Mac Ellis, water control technician for the Trent-Seven Waterway system.

Dear Sir:

I live on Eagle Lake in Haliburton and I am one of the people you mentioned in your letter to the Haliburton Echo of May 17 who objects to the extremely high water levels this spring and also the very low levels of last fall.

Our concern is with the great fluctuation of water levels in one year. These extreme high and low levels are hazardous to all wild life. If the high level of spring is not maintained, the water birds nesting is endangered. If the water is going down in the fall, the fish spawn then the eggs die. Plant life suffers as well with great change.

We would like to see reasonably high levels in the spring, maintained until after the nesting season, mid June perhaps. The levels lowered gradually in the summer and a comfortably lower level through the fall spawning season with a higher level in November for the safety of our water lines.

We are quite aware of the need to control these lakes for the vacation waterways, we just want to make sure that our wild life is protected as much as possible.

Thank you,
Catherine Denholm,
Eagle Lake, Ont.

To the Editor:
In reference to your front page story "after fight in area hotel."

I wish you would get the facts right in your choice of description "after fight" and "following a fight."

What happened was unprovoked assault, that being one punch. There was no exchange of blows, nor previous conversation.

I would also like to point out that the name of the man charged was incorrect as you ran it.

Sincerely,
Dave Willis,
Minden, Ontario.

To the Editor:

Last week's issue of your paper contained an account of an assault at the Rockcliffe Hotel involving my son, Stephen O'Brien.

I believe that the Ontario Provincial Police report which you received listing the incident as a "fight" was misleading and perhaps responsible for your article to state that the assault occurred "following a fight."

The fact is that no fight whatsoever occurred. Stephen O'Brien was the victim of an assault by a total stranger, which came as a complete surprise to him and was unprovoked by him. These facts can all be verified by the Police Department.

I would sincerely appreciate it if you would print this letter to clear up any erroneous impressions which may have been made concerning the good character of my son.

Yours very truly,
Paul S. O'Brien,
R.R. 1, Minden.

Editor's Notebook by Len Pizze

The space at the bottom of page four that is taken up by the words you're reading is something I inherited. And like the host of other things people are inclined to inherit, this space can be both a blessing and a curse.

It's called the editors notebook, and I inherited the name when I inherited the space. Now, the name is a little misleading, I have to confess. The name implies that somewhere in front of me, at this moment, I have a little blue stenographers notebook stuffed full of bits and pieces of stories and events that happened through the week. Now that little blue book would be a kind of insurance against the day (one I hate to think about) when absolutely nothing happens that's newsworthy. If the day arrived, I could just turn to my editors notebook and pick out something, somewhere, that could be turned into a story. Well, the truth is that while I do have a notebook, it isn't full of the kind of thing that I can use to fill up this space. What it is full of is longhand scrawl from phone conversations and speeches that I sometimes have trouble deciphering even five minutes after I've written it. So when it comes to writing this column, I have

to rely on something else for inspiration. I don't usually do this column until Tuesday morning, which is cutting it a little close, since the paper has to be out of here by supper time Tuesday night. But so far, that is, until today, I have managed to scrape through with one thing or another to sound off about. That's the blessing part of the inheritance. It's nice to have a chance to say what you think in the newspaper, even if very few people read it.

The curse part hit me today. I arrived this morning hoping for inspiration and it didn't come. I wrote a few news stories and waited for something to come to me, but nothing did.

Now it's 2:30 in the afternoon and I should be out at the layout tables putting together the front page and helping with others, but still nothing has come to me with which I can fill up this space.

I think I'll just have to give up. The space on page four will just have to wait until next week for something worth saying. I think I've got the answer, I'll just say, "The editors notebook will appear next week." That ought to do it.

Feir Play

by Creighton Feir

The other day when I was in Minden I met an old friend, Al Barron, who I had not seen for some time. Al at one time was employed by Ontario Hydro in Minden and he played trombone for the Haliburton County Brass Band, of which I was a member. Those were the good old days when the boys from Minden joined in with the fellows from Haliburton to form a county band. On my way home to Haliburton I recalled all the good times that we had together and one of the parades and events that we played for in the county, and some times we would venture out to play in places like Bobcaygeon and Lindsay. I shall never forget the time that we played a monster parade in conjunction with the Lindsay Central Exhibition. There were at least forty bands there that day and what a thrill it was to see bandsmen from both villages marching along side by side. We always hear it said that it's practically impossible to get the people from Minden and Haliburton to pull together, well let me tell you we did it with the band and we were one big happy family. We all got to know each other very well and at that time Slim Brandon, of Minden, was the leader of the band.

The council of the municipality of Dysart et al have advised the Echo that dumping hours at the Haliburton Dump are as follows. The Dump will be open 7 days a week and two nights. Will you please in the interest of preserving the dump, please comply with these hours. Thank you.

Construction work is well under way on the highway 35 bypass to the village of Minden. We were by there the other day and you can hardly move for equipment and trucks, trying to get the job completed. One often wonders why this work can't be done earlier on, before the traffic becomes so heavy, but you can't work while there is still frost in the ground.

Construction for the second phase of the sanitary sewage system for the village of Haliburton still continues on several streets and some of the local homeowners have been complaining of the dust. Well everyone will be pleased to note that the town streets will be paved on the last week of June.

The great Connie Mack once said "I've seen boys on my baseball team go into slumps and never come out of them, and I've seen others snap right out and come back better than ever." I guess more players lick themselves than are ever licked by an opposing team. The first thing any man has to know is how to handle himself.

The 2nd annual Highland Home and Vacation Show, which is scheduled for Haliburton on Friday, Saturday and Sunday, June 16, 17 and 18, is well under way and we understand that all of the booths have been sold. The show, which is sponsored by the Kinsmen Club of Haliburton, has turned into such a big event that this year they will be using the Haliburton Arena and the new Haliburton Curling Club to accommodate all of the booths. Kinsmen members have told me that there has been such a demand for space, that companies as far away as Peterborough, North Bay and Toronto have had to be turned away. One of the highlights of the Home Show this year will be the train show, called Lindsay Model Engineers, which will be on display all weekend in the lounge at the Curling Club. Visitors to this year's show will have the opportunity to view the new curling arena with its many facilities including two squash courts.

The New Horizons program is an ongoing project of the Ministry of Health and Welfare, aimed at assisting Senior Citizens Clubs across Canada. Bill Scott, MP for Victoria-Haliburton, said last week he was pleased to learn that a New Horizons program grant, in the amount of some \$8,000 had been granted to a group of Senior Citizens in the community of Cobocok. The "Committee of Creative Arts" headed by President, Doug Merrett, of R.R. 2, Burnt River, is attempting to develop greater interest and participation in the Victoria County choral craft and drama activities, members will put on plays, give concerts and have craft displays and demonstrations during the upcoming "Festival of the Arts."

Sinc Nesbitt, who has served as reeve and on council for the past ten years, in the Township of Stanhope, will not seek re-election in Stanhope at this year's November municipal election. Sinc Nesbitt has served his township well during these past ten years and amongst his many accomplishments has been a new township garage, a new fire hall and library. During his time in office, Reeve Nesbitt has seen Stanhope expand its roads system and department from a one man operation with a \$25,000 budget, to a five man department, with a \$150,000 budget and its own road equipment. Sinc is a progressive businessman who likes to see things move ahead and has been a driving force toward the progress that has been made in Stanhope. He will be a hard man to replace.

Lindsay merchants made their first game in the Tri-County Men's Softball League a winning one last week when they defeated Haliburton 4-1 in Haliburton. Bernie Nicholls, pitching for Haliburton, blanked the Lindsay team for five innings, but a three run sixth and a single run in the seventh decided the contest. Well, better days are ahead for the Haliburton squad and if they can get a little more hitting, they should be right up there as strong contenders for the title.

In closing this week we would like to inform our readers that we are once again running short of photos for our Pic of the Past. If you have any old photos around the home please hand them into the Echo. We would certainly appreciate receiving them and you will get them back in the same shape that you give them to us. Hoping to hear from you.

"Serving the Highlands for 95 years"

The Haliburton County Echo is an independent newspaper serving Haliburton and Victoria Counties for 95 years. Established in 1882 as The Minden Echo and Haliburton Recorder and amalgamated with The Minden Recorder in 1977. The Haliburton County Echo is published by Algonquin Graphics Limited at Haliburton, Ontario, Box 360, K0M 1S0. Phone 457-1037.

Advertising is accepted on the condition that, in the event of a typographical error, the portion of the advertising space occupied by the erroneous item, together with a reasonable allowance for signature, will not be charged for, but the balance of the advertisement will be paid at the applicable rate.

In the event of a typographical error advertising goods or services at the wrong price, goods or services may not be sold. Advertising is merely an offer to sell and may be withdrawn at any time. The Publisher reserves the right to restrict all ads to their classifications and to edit or reject any copy.

From the Chamber

by Bob Stinson

There have been a number of grand openings in the Haliburton region not the least of which was Hyland Lumber's brand new showroom. Hyland Lumber, of course, is no new comer to Haliburton, that their entry into the retail business on a grand scale is certainly new. Their new showroom is well designed and extremely functional, and with this new facility added to our existing suppliers there is certainly no reason for anyone considering renovating or building to venture outside our own area.

In Minden, Mae's Book Store is now also the Travelways Bus Depot. Don & Mae have put considerable effort into renovating a portion of the building to provide an attractive, comfortable waiting area and access has been provided for the buses to pull up on the street at the rear of the building, thereby eliminating any traffic congestion on Minden's main street. Both those travelling by bus and those using the package delivery service provided by Travelways, will find the new facilities extremely functional and convenient.

Norm Hobbs officially opened his Blue Ridge Riding Stables on the Petersen Road last weekend and was pleased to find he was operating at capacity on the Sunday and Monday. By co-operating with Woodland Ranch, Norm has been able to offer 6,000 acres of riding trails in some of the areas most picturesque terrain.

We offer our congratulations to all of the above mentioned on their grand openings and wish them much future success.

A Tour Boat's Coming

John Teljeur, president of the Lake Kashagawigamog Tourist Assoc. was pleased to confirm last week that arrangements are now being finalized for a Tour Boat to begin operation on Lake Kashagawigamog this summer. The boat is a 33 passenger craft, powered by twin diesel engines. The seating area is completely covered and there are side curtains which may be pulled down for inclement weather. Details as to where the boat will be stationed and what the scheduling will be have not as yet been finalized, but we look forward to providing these details as soon as they are available.

It has been many years since the Highlands have had a Tour Boat available for visitors and we are very pleased to find this attraction will once again be made available for visitors to the Highlands. It's presence will be a benefit to us all and we thank John Teljeur for his considerable efforts towards bringing the boat to the region.

Downtown Renewal

The Chamber's application to the Ministry of Housing for two project workers under the Experience '78 program has been accepted. Two people will be involved for ten weeks this summer in studying the revitalization possibilities for the main street of both Haliburton and Minden and preparing the proposals that eventually will be submitted to council for approval. In Minden they will be working closely with the newly formed Minden Businessmen's Association, and in Haliburton with the committee that was established to form a business improvement area. They will be surveying not only the property and business owners in town, but customers from both in and outside of the area, as well. When they have ascertained what the customers would like to see happen, and what the merchants feel is within their capabilities, the final proposals can be drafted. Some of their proposals may not be possible within the next year or even two, but hopefully with a master plan of what we hope to accomplish, we can make our towns more attractive to visit and shop in.

In Haliburton at the present time we have senior citizens apartments under construction, an addition to the legion just beginning, a new museum at Glebe Park well underway, a new I.G.A. store taking shape, sewers still being installed, and thanks to the generosity of Rex Boice, the completion of Rotary Park around Head Lake. With all these things going on it's none too soon to organize a B.I.A. program so that all these new facilities can be tied together for the benefit of the town as a whole.

When you meet these young people this summer, please give them your utmost co-operation so that their program will be meaningful and worthwhile.

Businessmen's Seminar

Pic of the Past

Our Pic of the Past takes us back to 1945 on VE day and the above photo shows Harry Brohm standing beside his truck when he was in the cartage business at that time. The back of the truck is loaded with school students shouting and waving flags, celebrating the end of the war in Europe. Phurness Watt, also of Haliburton, is the man behind the wheel of the truck. Our thanks to Mrs. Phurness Watt, of Haliburton, for submitting this photo.

Bill Smiley

Anybody got a job for my kid? She's 27 years old, has three degrees, is three times as bright as her old man, can charm the birds right out of the trees when she feels like it, and is an outstanding fund-raiser (from me).

She plays the piano extremely well, the guitar rather rustily. She composes music, raucous rock or contemporary classical.

She can cook up a storm when she's at our place, although I've never had anything more substantial than a cup of weak tea and a burnt brownie at hers.

She has an erratic but brilliant academic career, liberally sprinkled with A's for essays and glowing tributes from professors. That is, mainly because she can write rings around me, and comprehend abstract theses in one-quarter the time I do.

She is completely versed in all the modern psychological jargon of child-raising, but despite that has two happy, healthy children. Despite the fact that she's an ardent Women's Libber, she's still living with a male chauvinist husband and gets along pretty well with a male chauvinist father, or at least what she thinks is one.

She can type at a hell of a clip, self-taught. She has worked as a waitress, a bartender, an organist and a helper at a day-care centre. And finally, she's a consummate actress. You should hear her conning her mother into taking the kids for a week.

Now wouldn't you think that with all these attributes, she could hack some kind of living out of our economic jungle?

But no. Her problem is that she is ready, willing and able to go out and conquer the world, but she's walking right into Canada's worst unemployment situation since the Great Depression.

An added difficulty is that

she is specially trained to be one of those pariahs of today's society - a teacher. Being a newly graduated teacher today is like being an undertaker in some Utopia where nobody ever dies.

Every occupation has its day in the sun, I guess. Fifteen years ago, it was the turn of the teacher. If your body was warm and you were still breathing, you were likely to be snatched off the streets or out of an office, and propped up in front of a classroom.

With the post-war baby boom over and out of the schools, and the reluctance of so many young people to have children, for whatever reasons, school enrolment has shrunk drastically, and will go on doing so for several years.

The huge educational empires created during the boom years are shrinking, and attrition is fairly savage. Thousands of young teachers are unable to get jobs. Hundreds are losing their jobs because they are redundant.

It's nobody's fault, particularly, just a matter of exorbitant management by our leaders. Nothing new in that. They're the people who study all the charts, examine all the facts, and invariably come up with the wrong answers.

Day in the sun for the

teachers is over. Morale of those already in the profession is low, for various reasons. Morale of those trying to enter it is depressing.

I reckon doctors got the next day in the sun. For years, along with the dentists, they carried thousands of dollars on their backs, of people who could not or would not pay their medical bills. Then came health insurance, and suddenly young doctors were making a fantastic living, because they were paid for everything they did.

Now they've had their day too. They work incredible hours, often in rotten little offices where they scarcely ever see the light of day. But their expenses have shot up, they pay a whacking income tax, the government is always creating more paperwork, and suddenly it's become a grind.

Who's having his day in the sun in the sick 70's? I'd say the service people: garage mechanics, TV repairmen, plumbers, electricians. It certainly isn't nurses or construction workers.

So be it. But there must be something awfully wrong with a country when thousands of highly dedicated, highly educated young people simply cannot find employment in what they were

Cont'd. page 12

Report from Queens Park

by MPP John Eakins

Premier Davis and Premier Rene Levesque of Quebec met at Queen's Park this week, and apparently dealt with the question of national unity only incidentally. The Premiers' 13-page communiqué referred to agreements to end several inter-provincial irritants, and they spoke of agreement on "equity and reciprocity" for construction workers from one province holding jobs in the other. Mr. Levesque said that did not mean he will drop a regulation planned to go into effect July 1st which would require extensive Quebec work experience for Ontario labourers seeking jobs in Quebec, and that the two Ministers of Labour are continuing negotiations. He told a press conference that he and the Ontario Premier should meet at least once a year. His own conclusion would be that the two provinces can continue their close association even if Quebec leaves Canada - "Whatever the future may hold, they will continue to be neighbours," he said of Ontario and Quebec.

Legislation has been introduced to increase Ontario's drinking age to 19 from 18, effective September. Amendments to the Liquor Control Act will also tighten penalties for impaired driving convictions. Some other provisions of the Act will be modified, including one that now requires food to be served with liquor on Sunday. Fines to people serving liquor to minors will be substantially increased, and there will be tougher penalties for drivers who face second and third convictions for impaired driving. Tourist lodges will be given more flexibility to permit families with children in areas where alcohol is served. This new legislation is part of a promise made last November by the Premier, following majority support for a Private Member's Bill to raise the legal drinking age to 19, introduced by Liberal Remo Mancini from Essex-South.

Appearing before a Committee of the Legislature, the President of the Ontario Federation of Agriculture urged the Government to launch a formal inquiry into rebates demanded by grocery store chains from food suppliers and "other questionable practices." "The prices farmers receive are public; prices consumers have to pay are public; but what happens in between is unknown, confusing and suspect." Any inquiry would have to hear some evidence behind closed

doors, he said, because food suppliers fear they would be "committing economic hari-kari" if they made public complaints against the chains they must sell to if they are to survive. "The very fact that people refuse to be quoted is a disturbing reflection on the food industry and more reason to investigate what's happening."

The Government has increased its \$776,000 budget for translation services by almost 25 per cent. This move reflects booming business at translation agencies as firms and governments act to print material in both English and French, according to officials of the translation services.

The Ontario Government's 20 member translation bureau will be expanded to include eight additional people at an extra cost of \$172,161. Last year, the government farmed out \$332,101 worth of translation work which it was unable to handle, representing 71 per cent of the bureau's workload.

There has been considerable debate in recent weeks about a Toronto tabloid "Strike", which has received a number of grants from the Provincial Government - from the Ontario Arts Council and Wintario Funds. Liberal Leader, Stuart Smith, charged that the Minister of Culture and Recreation gave personal approval. The tabloid is owned by the Kensington Art Association, and has published pictures of bullet-riddled bodies, advocating terrorism and stating that it "supports leg shooting knee capping to accelerate the demise of the old system." The Minister has now backtracked from earlier statements that the tabloid had no connection with the Art Association, and has said that a cheque for a further grant will be blocked until "a full review" is run on the group. He conceded in the Legislature that "there are similarities in some of the names" of the directors of the association and the tabloid. Four of the seven directors of the association are also listed on the tabloid's editorial board, including the president and vice-president.

The Minister of Natural Resources has said that Ontario's pulp and paper industry could be made environmentally acceptable and competitive in five years, but might need financial help from the Government to do so. To reach this goal, the industry would have to spend \$106.4 million a year for five years on pollution control, compared to \$16.3 million it has spent annually for the past seven years.

Eakins releases tourism task force report

John Eakins, Liberal M.P.P. (Victoria - Haliburton) released today the Report of the Liberal Task Force on Tourism. Following is an excerpt from an "overview" of the concerns expressed by tourism operators throughout the province.

The Task Force has found that the problems of the province's tourism industry can be summarized in three main areas: they are over-regulated, over-taxed and suffer from a perceived negative attitude toward tourists.

Following are highlights of some of the major recommendations:

To establish a mechanism that will provide for a more direct working relationship between the 14 ministries which are involved with the tourism industry.

To re-institute a committee along the lines of the Legis-

lative Committee on Natural Resources and Tourism (whose last meeting was in 1970). This had provided an opportunity for the tourism sector to meet directly with the provincial government to discuss their concerns, and might also help to co-ordinate the efforts of the various ministries involved.

A re-alignment of present ministries to couple Tourism with Culture and Recreation, in order to give tourism the higher profile it needs in the government and to highlight the tourism related aspects of Culture and Recreation.

Reduction of the 10% provincial sales tax on meals over \$6 to the same level of taxation that applies to all other luxury items (normally 7%).

A program to allocate the \$3 million increase in the

Ministry of Industry and Tourism's advertising budget to assist individual operators in their own advertising efforts. It is felt that they (tourist operators) have the best idea where their clients originate and what they are looking for in a vacation.

As a first step towards improving tourism awareness in our educational system, a suggestion for a province-wide contest to choose a souvenir for Ontario and a poster.

That the three levels of government and the private sector proceed to finalize plans for a Metro Convention Centre.

As a short term initiative to get the province's tourism trade rolling again, that a tax credit scheme be implemented for Ontarians vacationing

at home (i.e. perhaps via partial reimbursement for hotel and transportation receipts).

That the province upgrade the information centres at the major ports of entry to the province, so that the tourist may be provided with complete facilities to purchase licences, make reservations, exchange money, and obtain promotional material.

That the province implement a \$5 resident fishing licence, provided that the revenues derived from the licence are allocated to a restocking program for our lakes.

Copies of the Report are available upon request from the office of John Eakins, M.P.P., Room 114, North Wing, or Sandie Giles, Room 126, North Wing, Legislative Building, Queen's Park.

Coboconk spring festival - a time of craft and song

Maggie Trevett, of Toronto, was on hand at the Festival to show her special brand of making pots. Maggie has sold many of her works around Southern Ontario and has participated in many festivals, such as the one which is being held in Coboconk.

Tracy Little, Debbie Shaw, and Shirley Balson look on as Anne Robertson prepares a copper necklace for display in the crafts tent at the Coboconk Spring Festival.

Sylvia Tyson, John Eakins among guests on Monday

Coboconk was the scene of a number of activities in the Victoria County Spring Festival of the Arts this week, and joining in on the festivities were folksinger Sylvia Tyson and John Eakins, MPP for Victoria-Haliburton.

Eakins was on hand to open the Coboconk portion of the festival. In a short speech to a large crowd on hand Monday afternoon, Eakins noted that the continued success of the type of arts festival that has been going on for the past week all over Victoria County was important, and it should

continue, he said.

Sylvia Tyson entertained a crowd of about 100 people with her latest songs, and even decided to sing a tune written by the Islington Youth Choir, which performed before she appeared on stage.

"It was a lot of fun, even though I did get the chorus mixed up," she said. Tyson will be moving on to Fenelon Falls on Thursday, June 4 and will continue her country tour right up until June 3 when she will perform for the Manvers Township festival. The tour

is part of a larger cross-country tour which she is doing for the CBC.

The Coboconk festival committee held a Lions Dance at the Lion's Hall on Saturday, May 27. An Arts and Crafts demonstration was also held at the hall on May 29, along with the Islington Youth Choir and a puppet show in the morning.

Several exhibits such as loom displays, carving and weaving booths, and cake-dressing exhibitions were also featured.

country was played and the boys from Whitby stood tall as O'Canada resounded from the P.A. system in the Oslo arena.

Last weekend, at Pine-Stone, these gentlemen gathered to celebrate the 20th reunion. It was hard for one to believe that these distinguished men were at one time moulded into one of the finest Senior A hockey teams in Canada. Age has overtaken a few and grey hair was evident, but the love for the game was not diminished.

To most of these people, winning with Dunnies has had a great bearing on their lives and careers. Of course, as we all know, some have never left their first love, the game of hockey. Take Sinden for example, general manager of the Boston Bruins, Stan Waylett who just retired as trainer of the North Stars, Gary Darling, chief scout of the Bruins, Wren Blair who still owns the Saginaw Gears, Ted O'Connor, scout of the North Stars, Frank Bonello of the Marlies, Roy, Edwards,

who in the series in Norway played outstanding goal, and many more. Unfortunately, time brings death and three members of the famous Dunnies have passed on, namely J.P. Lamirand, Gordie Myles and a personal friend of the writer, Jack Armstrong. The goal scorers in the big game

against the U.S.S.R. were evident last weekend, Buz Gagnon, Connie Brodin and, of course, the big gun of the Dunnies, Bobby Attersley, who fired two big ones in the final game.

These men played in a golf tourney at PineStone and

County Echo Family

Haliburton

Highlights

The 1978 Haliburton Swimming Classes require one assistant with qualifications - Leaders or Bronze Award. Classes will be for eight weeks, July to August. If you are interested please call Mrs. Murray Austin at 457-1867.

We are always hearing complaints that the main street and some of the side streets in the village are not swept enough. Well, we are pleased to report that the job was done one day last week.

Our congratulations go out to Rick Bailey, son of Mr. & Mrs. Merrill Bailey, of Haliburton, who graduated from Sir Sandford Fleming College in Peterborough, at the Eleventh Convocation held on May 13th.

Mark S. Vasey Insurance Agency (1976) Ltd. is moving to a new location in Haliburton. You will now find them in Brohm and Leighton's office, next to the IGA on Highland Street. They will be in their new location on June 1st.

We have been informed that it won't be too much longer before work will commence on the new park on Head Lake at Haliburton. The present Rotary Beach area will also be in for a real face lifting.

At time of writing this column, Haliburton is suffering through a real warm spell. Oh well, it was a long cold winter so we can stand more of this kind of weather.

Well, the National Hockey League season has finally drawn to a close. It seems like a very long season and it seems to be getting longer every year. We must admit one thing and that is that the playoffs this year were really thrilling and it all goes to show that we can really see hockey as it should be played when the chips are down.

Mr. & Mrs. Jim Henry, of Orangeville, were recent visitors to their cottage on Loon Lake. Jim has been a friend of mine for a long time and it was a pleasure to see him and his wife Gerry back in Haliburton for a visit.

If we can just get good weather it looks to us as if we can be in for one of the busiest summers we have had here for some time. They say that money is tight. Maybe it is, but people will still take time out to have a vacation.

We had a power failure in Haliburton last Wednesday evening around midnight, but the boys from Ontario Hydro had the situation remedied in the matter of a few minutes.

We have been hearing a lot lately about Welfare and how it is being abused. All municipalities in Haliburton County are screaming about the fact that welfare costs seem to be climbing higher and higher. It seems to us that the people who are drawing this welfare, in most cases should be made to go out and work for this money. The manner in which welfare and Unemployment Insurance is being handed out makes us realize that slowly but surely we are being turned into a welfare state. For many people in Haliburton County work is just not available, which is a crying shame, but for others, collecting welfare and Unemployment Insurance is just an easy way out.

In this country of countless lakes and rivers, our summer season naturally finds thousands of vacationers enjoying the pleasures of water sport and aquatic recreation. For those on holiday at the cottage, beach or resort, the pleasure boat can become as important as the family car. Indeed, Canadians each year make use of approximately one million leisure crafts from canoes and sailboats to large yachts.

This is the story of a young man named Elmo who had taken the wrong road simply because of the absence of a parent. Unfortunately for this lad his parents were not getting along together and eventually separated. The lad, with his two younger sisters went to live with their mother and were moved to a new district. This meant transferring to a new school. The mother found a job at a factory and for a short time things seemed to run smoothly. Then this lad got in with the wrong company. Very soon he became a drop out from school and one of the gang.

Arrested on a minor charge he spent the

weekend in jail. The Salvation Army Correctional Officer was making his regular rounds. Seeing this young man and after talking with him realized that he was capable of better things and took an interest in him. The Officer spoke to the Magistrate who agreed to release him on condition he would report to the Captain regularly. Lodgings were provided at the Army's hostel where he attended the chapel services. Soon he found a whole new way of life.

After working at the Army's industrial centre for a time he found a job at a factory where he became well established. Needless to say both parents were overjoyed and grateful to The Army.

Think how much this young man would have cost the taxpayer. This should merit your consideration to contribute to the Red Shield Campaign. Give out of love to others.

The County Fair Beef Barbecue and Dance will have an added feature this year. An excellent film of horse drawing events showing scenes from local fairs will be shown and it's a documentary from the National Film Board. The Fair Board had to book this popular film months in advance and it should be well worth seeing. This film will give everyone who attends the opportunity to see just what other communities are doing when it comes to Fall Fairs.

The evening will begin with a delicious roast beef meal and we urge you to watch the horseradish...it's HOT! The film will be shown at 8:30 p.m. and the dance will get under way at 9:30 p.m. with music being supplied by the Misty River Ramblers.

All of the action will take place at the Minden Community Centre on the ice surface, so come for the entire evening.

The admission price is \$12.00 per couple and the film and dance only is \$6.00 per couple.

All proceeds will be going toward the Fair and everyone is looking for a big turnout. Don't forget the date - it's Saturday evening, June 3.

Team schedules

from page 6
future until financial statements are presented by both groups, and that the grants would only be paid if the financial statements reflected an undesirable deficit. The committee noted that the clubs must raise their own funds, and that ice rental will be charged at the full \$18 per hour rate.

Representatives of the clubs will be invited to attend the next general meeting of the recreation committee to discuss the matter further.

In an attempt to clarify the committee's position on the control of parkland, a resolution was passed requesting the municipal council to further define its authority in relation to the parks as soon as possible.

Brian Sisson was authorized to purchase four badminton nets.

Champs

from page 7
reminded about old times and, of course, that big day in Oslo, Norway 20 years ago in which they not only made every Canadian proud, but created a turning point in each and every one of their lives. As the great Vince Lombardi once said, "A man's greatest hour is when he lies on the field exhausted but victorious, knowing he gave every inch of his body." How true that must have been twenty years ago when the Dummies won in Norway.

Delmar Neimann of Whitby caught this 16 pound lake trout on Drag Lake during the May 24th weekend. Neimann was out fishing with his father. He said it took him five minutes to land it.

Cancer society raises \$3,023

The local campaign committee of the Canadian Cancer Society says this year's campaign has raised almost \$500 more than was raised in the campaign last year. Campaign Manager, Maxine Curry, says a total of \$3,023.00 was raised by volunteer canvassers.

The local committee says it wishes to express a sincere thank you to all who participated in the door-to-door canvass. Anyone wishing to give "In Memoriam" gifts to the Cancer Society is asked to contact Mrs. Elwood Austin, of Haliburton.

Patients needing assistance from the Cancer Society should telephone 457-1201.

Haliburton Ladies Softball

Election meeting

There will be an election meeting for the Haliburton County Ladies Softball League on Thursday, June 1, at the legion auditorium.

The purpose of the meeting will be to elect officers,

discuss Wintario grants, newspaper coverage, and to complete banquet plans.

All interested persons, players, umpires, coaches and onlookers are urged to attend.

News from Extendicare

by Dr. O.W. Anderson

In anticipation of the Thursday potluck dinner that is coming up when we meet with the Senior Citizens Club of Haliburton, in the Dysart Community Centre, some ladies baked a two foot by a foot and a half cake. For some reason no resident ladies helped in this venture, but it was left to Mrs. Bonnie Bonsfield and Mrs. Darlene Darby of the kitchen staff and was completed sometime Monday, Tuesday, or Wednesday. We much anticipate helping to eat it on Thursday.

It is possible we went out on a limb with our plants and flowers, because since our present willing manpower seems to be so severely limited, a full program of flower beautification of the whole Extendicare landscape will not be possible. There are plenty of plants propagated so it is simply a matter of getting them set in the ground, and then afterward see to their watering. There is now, and no doubt for the remainder of the summer will be, plenty of water, so it is only a question of someone willing to ply a hose on the flower beds so we can be sure they will not come to an early end.

Other institutions can maintain attractive beds of flowers, surely out of sixty residents we can find one or two or three sufficiently enthused that they can set out plants already propagated, and then follow up in their watering for the rest of the flower season. We had a very lovely flower display last year, but it does seem bleak for this. Because of the nature of our inherent limitation, it is somewhat indicative for one resident to ask another resident to do something, and yet we feel for some of them to do what is shown above to be desirable, would really be good for the morale. If the program as suggested, is not carried out, hundreds of potentially beautiful plants

will eventually be simply thrown out. This then can be called "a word to the wise." It may be asked why the present effort of transplanting and watering cannot be extended through the summer; the answer is that it is already committed to arranging for a limited floral display, sufficient to keep us busy enough.

Thursday, as planned, we were taken with date cake to meet with the Haliburton Senior Citizens in the Dysart Community Centre, to join in a potluck dinner. So many times we have written about these dinners, it seems we have forgotten an adequate "thank you kind folks". So there it is. A very fine dinner it was. Grace was said by Capt. Doug Barry at the request of the president, Mr. Emil Neimann. There were an assortment of delicious meats, potato salads, cole slaw and what not in the main course, various kinds of pies, rhubarb in particular, some puddings, and, of course, date cake. It was announced that there were 100 members on hand, and many birthdays were celebrated. Our transportation to and from was provided by Mrs. Pat Burk, Mrs. Lorna Hogg and Mrs. Joan Hutchings, in their private cars.

A very delightful surprise was given to us when the Senior Elementary School brass band moved their music period to Extendicare's front lawn to give us quite a concert under the able leadership of Mr. Don Wright. Mr. Edward Whiteway, a teacher-leader of band routine, came to help. The tuba players were Peter Connelly and Duff Mitchell. This is noted to try to show that we would like to list everyone. They gave out a very melodious succession of very nice band music. Haliburton can be proud of them. This is the first time this band has favoured us this way.

The senior band of Haliburton Highlands Secondary School put on their annual spring concert at the school Thursday. Also featured in the program were the intermediate band and the stage band.

L.O.B.A. celebrates 50th

The Haliburton L.O.B.A. Northern Star Lodge No. 828 held a special meeting on Wednesday, May 24, to celebrate their 50th Anniversary.

Right Worshipful Sister June Antoine, Grand Mistress of Ontario East, and Right Worshipful Sister Woodbeck, Grand Treasurer of Ontario East, were present to convey congratulations and best wishes to all members of the local lodge and also take part in the meeting.

The Right Worshipful Sisters were presented with corsages and gifts by Worthy Mistress, Sister Irene Higgins, in appreciation of their attending this special meeting.

Other guests were several L.O.B.A.'s from Cameron, Burnt River, Kinmount and

Our Friday morning devotional period did not take place. Our scheduled leader simply did not show, but this did not cause us any inconvenience in any way. Our sincere thanks go to all the denominations that have so kindly furnished us a leader when their respective turn came to do so, in the past years.

Mrs. Lila Simmons is with us again, after having explored the Yukon. That region of Canada has a magnificent grandeur that no other country has. Mrs. Simmons was quite enthusiastic about the thrill of flying.

We plan to start committing our many plants to the outside June 1st. Any sooner is taking unnecessary risk of frost in this area. There are many plants nearly ready to bloom, petunias, allysum, pansies, geraniums, marigolds, dahlias, balsams and statice. We believe we will have a nice display.

Our gratitude goes to the municipality of Dysart et al for giving us such a nice walkway or roadway, whichever, on Park St., or should it be changed to avenue now?

Minden.

After the meeting the three Barnhart Sisters entertained

with music and song.

Following this a buffet was served.

Gems of Truth

Continued from last week:

That prophecies were made, and writings given, over a period of thousands of years, yet accurately fulfilled and unison maintained, is clearly not the work of man. The Holy Spirit must have the credit.

Such then, is also the testimony concerning His work in the New Testament. Just as the Spirit of God had a part in the creation of the world, so He has participated in all its events down to our present day. Especially, is this true in relation to the Lord Jesus Christ. From the day of conception by Mary, as announced by Gabriel, to the ascension of Jesus to Heaven, the work of the Holy Spirit was prominent in the life of

THE ECHO AND RECORDER, Wednesday, May 31, 1978, Page 9

Jesus. Was not the ministry of our Lord opened under the direction of this Third Person of the Trinity?

The Bible says, "He was led into the wilderness by the Holy Spirit, to be tempted of the Devil" (Math. 4:1). All through his three years of service to mankind, Jesus spoke and worked by the power of the Holy Spirit. Finally, when this ministry was over, Jesus is said to have offered Himself to God, by the might of the third person of the Trinity. Likewise, He was raised from the dead by that same source.

During the earthly ministry of our Lord Jesus, constant reference was made to His disciples about the unfolding truth concerning the Holy Spirit. First, He taught them that He might be received through prayer to the Father

(Luke 11:13). Again, near the close of His ministry, Jesus promised that He would pray the Father, and the Comforter would be sent to abide with them (Jno. 14:16, 17). After His resurrection, He came to the disciples in the Upper Room and breathed on them saying, "Receive ye the Holy Ghost" (20:22). Immediately before His ascension to the Father, He commanded the disciples to wait, until the Holy Spirit should come and empower them for their life work (Luke 24:49, Acts 1:8).

On his advent into this world, on the Day of Pentecost, the whole body of believers became the dwelling place of the Spirit. He indwelt them, individually and collectively. Thus, even as God the Father is the Omnipresent One, dwelling in Heaven, and the Lord

Jesus as Omnipresent, yet being at the right hand of the Father, so the Holy Spirit is Omnipresent and dwelling on earth. It is in this sense that He came on the Day of Pentecost. His actual abiding place was changed from Heaven to earth.

The Book of the Acts of the Apostles, clearly brings before us this Heavenly panorama. Jesus had said that when the Spirit comes, He would convict the world of sin (Jno. 16:18). This is precisely what happened. When Peter started preaching to the multitude gathered at Jerusalem, on the Day of Pentecost, a mighty conviction of sin gripped his listeners. As his audience was all Jewish, Peter told them to repent of the wicked deed they had committed. This same cruci-

Norland Notebook

by Barbara Maunder

For the past several years, in early May, the Coboconk charge of the United Church has held a Walkathon to assist the Mission and Service Fund of the Church. This money is forwarded to Toronto and is used by the United Church of Canada for World Development work. On Saturday, May 13, at 9:30 a.m., a large group of young people and adults walked ten miles on the Indian Point Road, Coboconk. There were check points along the way, with oranges and cold drinks available to any who wished them, and after the completion of the Walkathon, hot dogs and beverages were served by the church ladies, to all of the walkers. Last year over \$2,430.00 was realized from a Walkathon and it is to be hoped that this year will be just as successful. To all who sponsored a walker, many thanks for helping with this worthy cause.

Last Saturday, May 20, 18 year old Beverley Sims, of

Mississauga, went for a walk near the trailer owned by her parents at Head Lake. When she hadn't returned by dark, her family notified the Coboconk O.P.P. and an intensive search of the area was conducted all of Sunday and most of Monday when Miss Sims was picked up on Highway 503 about 7 miles from her parents' trailer. After telling the police that she had been lost in the bush since Saturday, she was taken to Ross Memorial Hospital, Lindsay, but later released. Her parents, Neil and Kathleen Sims, have asked me to express their heartfelt thanks to all of the men and ladies who helped and assisted in the search for their daughter. Your concerns and efforts were most appreciated by them.

If you like pancakes and syrup, you won't want to miss the luncheon, sponsored by the Coboconk Temple Corporation in the Norland United Church Hall on Saturday,

June 3, starting at 1:00 p.m. The group will be serving pancakes, maple syrup, sausages and a beverage for \$1.95 per person.

Remember the Laxton, Digby, Longford council meeting has been changed to Monday, June 12.

The Norland Firefighter's Association hockey pool is finished for this year and the final winners were Sue Magee on May 13, Ida Pardy May 16, Debbie Magee on May 18, and Karen Kenny on May 21. There were two extra hockey pools on May 16 and 18. The fireworks display was well attended and from the proceeds of donations at the park, on May 21, \$100.00 was presented to the Norland Athletic Club. All in all, a very successful venture.

On Thursday evening, May 25, as a prelude to the Victoria County Spring Festival of the Arts, the students of grades 7 and 8, under the leadership of Mr. Hugh Armstrong, and with pianist Mrs. Townley, presented the opera "Pink Bread." Over 120 people filled the Burnt River Orange Hall to view this musical play so aptly performed by the talented group of young people. Earlier in the evening, many visited the school classrooms to watch the students demonstrating crocheting, candle making,

Cont'd. page 11

Maple Lake News

Intended for Last Week:

A happy social event took place May 13 at Hart Lodge for the occasion of the Tuesday Night Combines Bowling League Banquet. A group of 47 gathered for a social half hour before dinner was served.

The roast beef dinner, served by the lodge attendants, was followed by the giving out of awards to all bowlers on all six teams, according to the position in which the team finished for the year, as follows: 1st place, Art Beatty's team; 2nd place, Lil Gervette's team; 3rd place, Pearl Foster's team; 4th place, Jack Yateman's team; 5th place, Eva Piper's team; 6th place, Ada Gibb's team.

Individual awards for high average: Ladies - Pearl Foster 211; Men - Hoary Baker 215. High triple: Ladies - Eva Piper 795; Men - Jack Yateman 844.

High single: Ladies - Marlene Bunn 336; Men - Ian Colman 369.

Team winning total pins in the playoffs was captained by Jack Yateman.

Officers for the league for 1978/79 season are: President, Bruce Medcalf Jr.; Vice President, Ken Beatty; Secretary, Fern Donnelly (Combines); Secretary, Susan Frances (Bowling Assoc.); Treasurer, Gail Medcalf; Cards & Flowers, Pearl Foster.

Several families from the Carnarvon area had good reason to attend the graduation exercises at the Sir Sandford Fleming College in Lindsay and Peterborough recently. Mr. & Mrs. Richard Kinsman attended the Peterborough College on Saturday, May 13, for the graduation of their son, Richard, from a three year Civil Engineering course. Rick, fortunately, has gained employment in the Mississauga area.

Mr. & Mrs. Jack Barnhart also attended the graduation exercises in Peterborough for their daughter, Lynn, from training as an Executive Secretary. Lynn was lucky to win a trip to France. Her parents have had a phone call from her, telling of her safe arrival. Lynn plans to continue her studies at the college and will be taking a different

course, perhaps in Business Administration.

Another Carnarvon graduate was Rick Bailey, son of the Bailey's of Carnarvon Building Supplies. Rick's three year course was in Business Administration.

Mr. & Mrs. Maurice Windsor attended the Lindsay branch of the Sir Sandford Fleming College for the graduation of their grandson, Dwayne Windsor, who has completed his training as a Geotechnical Technologist. Dwayne will be working with the St. Joseph's Exploration Company with headquarters in Toronto. His work will give him an opportunity to travel.

Mr. & Mrs. Richard Kinsman attended the Fire Chief's Conference in Ottawa, May 14-17. While attending, our Fire Chief, Richard, gained much worthwhile information which he feels can be put to good use in the Stanhope area.

Mr. & Mrs. Ross Harrison, and Mrs. Bert Johnson made a trip to Toronto to visit their brother, Cecil Harrison, who is still in hospital after suffering from a severe stroke in April. Get well wishes are extended from the home community.

Mr. & Mrs. George Cowan,

of Brampton, and Mr. & Mrs. Garnet Coulter, of Campbell River, B.C., are visiting in the area. While here they were taking part in the James Cowan Family Reunion which was held in the Stanhope Firehall Building, Saturday, May 20. The good wishes of the community are extended to all members of the family for this special occasion.

Mrs. D.B. Morgan (Esther Gibbs) has returned to her home in Calgary, after a 10 day visit with the various members of the Gibbs family, and with friends, and other relatives.

Bob's Off Again

Bob Davis, the well known Northern Tripper, has joined a select quartette of experienced canoeists for a two week paddle down the Missinaibi River from Peterbell to James Bay. The Missinaibi River is located 724 kilometers north of Toronto, and 338 kilometers northwest of Sudbury. Bob's foursome includes two professors from the University of Toronto, and a lawyer from Chicago. They left by van May 12 for North Bay and from there will continue by C.N.R. to Peterbell where they will embark on a very exciting white water

Cont'd. page 12

District News

Haliburton's landmark train, the Highlander, is getting a facelift for the summer. Thanks to Canada Works and the Haliburton Rotary Club, the old train will again look as good as new. After sanding the old paint and rust, Randy Rolston brushes on the first coat.

Highway 11, Huntsville, Ont. 705-789-2338

Coboconk News

by Sheila Lake

This beautiful hot weather is a real joy after a long, cold winter and a cold spring. Though most farmers are behind in their seeding and low areas are still too wet for planting, these past few hot days should remedy that problem. Of course, mosquitoes and black flies are very prevalent and it's impossible to sit outdoors these lovely evenings, but even so, this is a beautiful time of year and those pesky insects will soon be fewer.

For the gardeners, there is a real good choice of pretty flowers and lots of vegetables ready to put in the ground. The local stores have good healthy plants also. Drop in at the Hansen's and the Summerfeldt's greenhouses, just north of town on Highway 35. They have a good choice and at reasonable prices.

The Senior Citizens continue to be a very active group. With a dance in the Lion's Hall tonight, an interdenominational church service in the hall tomorrow, and a craft demonstration and exhibit, the Islington Youth Choir and Sylvia Tyson, all on Monday, as well as a puppet show, it's off to a busy week.

I think everyone in town had relatives or friends to

visit last weekend. It was a lovely holiday weekend and I saw many familiar faces - some we haven't seen since last fall. Parking down street becomes a greater problem each year. Really don't know what could help the problem and I'm sure the business folk wish they had an answer as folks driving through town would no doubt stop if they could find a parking place.

The Old Mill Mini-Mall has had a number of changes and the enlarged outdoor dining area, along with the newly opened lunchroom, is very attractive. You can eat in the great outdoors and watch the boats, swimmers, ducks and activities at the dam. So choose your lunch and enjoy a real treat in the great outdoors.

No doubt you read the account of the bear killing the three young men at Algonquin Park last week. Did you notice that Lorne O'Brien destroyed the bear? Lorne is with the Natural Resources and is the son of the late Mr. & Mrs. Percy O'Brien and was raised on the Buller Road, next to the Russell Brook farm.

Also, in Friday's Star of May 19, a story of tragedy

unfolded. On page 3 of the first section was the sad story of Shelley Elizabeth Hogan who was badly beaten and died at hospital. Shelley was the daughter of Mrs. Hogan and the late George Hogan. Mr. Hogan was the owner of Hogan Pontiac-Buick, a very large Toronto car dealership, a few years ago, and the family owned a cottage on Indian Point here at Coboconk.

The old church camp grounds and often called "the ball grounds", since years ago, baseball was played there, has been sold to Cedarhurst Quarries. Perhaps it is wishful thinking, but could there be some industrial activity in the future? Let's hope it will create a few jobs for local residents who would enjoy employment here at home.

If you are a Whipper Billy Watson fan, you may not know that he is ill in York County Hospital, Newmarket. Mr. Watson is a great champion of crippled children and if you have a disabled child, maybe you would like to cheer up this great man who is concerned with the crippled youngsters.

from page 11
cakeicing, sewing, macrame, painting, etc. at their open house display.

Victor Peel, of Hilton Point Road area had some excitement around 8:00 p.m. Wednesday evening, May 24, when he spotted a large black bear approximately 30 feet from his house. Mr. Peel has beehives on his property and it is thought that these are what attracted the animal to his farm. He decided to take his gun and follow the bear and hopefully shoot it before it did any harm to his hives. The bear, instead of running from Mr. Peel, turned and started toward him, stopping behind a tree about 20 feet away. He fired 4 shots at the bear before hitting and wounding him and then the bear ran off. Mr. Peel called the office of the Ministry of Natural Resources, in Minden, the next day, and expected them to be in touch and check out the whereabouts of the wounded animal.

The Ladies of the Women's Institute extend an invitation to all to attend a special meeting on ways to conserve energy at the W.I. Hall on Monday, June 5, at 8:30 p.m. Eneration Committee Conservation Centre is sending a

speaker who will address the group on energy conservation. This is a timely and important subject, so plan to attend. Refreshments will be served.

As of May 27, the Village Wool and Craft Shop will be open from 10:00 a.m. to 6:00 p.m., 7 days a week except Friday, when it will remain open until 9:00 p.m.

Mrs. Anna Verkerk has been successful in passing her real estate exam and is now qualified to sell real estate. She will now, no doubt, be lending a helping hand to her appraiser husband, Arie Verkerk.

The township pumper fire truck has just had a new 350 gallon water tank installed. The old tank was badly rusted out and leaking enough that there would not have been sufficient water to be of much use at a fire so a new one was made to order and installed in Lindsay. This new tank should certainly outlast the rest of the life of our 1954 fire truck.

I was sorry to learn from Russ Mills that his wife, Milly, has been in a Toronto hospital recently for eye surgery. Happy, though, that Milly is better and will be returning home this weekend.

Trent - Severn News

With no rain from Saturday, May 20, to Friday, May 26, and high temperatures, water levels and flows are receding quite nicely on the whole system. Navigation will be opening on May 27 from Hastings to Port Severn.

Only the lower Trent River now has flows too high for navigation. It should be operational by May 29.

Reservoir storage is being redistributed from upper lakes to lower lakes (e.g. Halls), but the storage remains at an overall percentage of 99.2 per cent on May 25. Gull River flow was still 1240 cfs today while the Burnt River flow has been cut by more than 2000 cfs to 640 cfs today, 2770 a week ago.

Otonabee River flow after today's reduction will be in the order of 3500 cfs, a cut of about 6500 cfs from a week ago. The Kawartha Lakes are near or a little above their maximum navigation levels generally.

As most cottagers and boaters know, the Waterway in most places has been closed all of the past week (May 22) due to high flows. Many people wonder why it is necessary to close or in this case not open because of these conditions.

During these types of conditions, the narrow channels near the locks become particularly dangerous with the

swift current. Also, the navigation buoys become submerged as the higher flows and levels pull them under the surface. This poses a hazard because they can't be seen to navigate by and they also become an under water obstacle. As experienced boaters know, these conditions are just too hazardous for navigation.

We bring people home

Stanhope Notes

by Alex F. Stevenson

The recent announcement by Reeve Sinc Nesbitt that he would not run in the next municipal election for any position on Stanhope Township council, has to be a cause for concern among thinking people of this township.

No one could have served the township better than "Sinc" Nesbitt during the years he has been on council, not only at the local level but also at county level and in dealings with senior governments.

The writer has had differences with "Sinc", usually over matters of viewpoint, but there has never been any doubt about his deep sense of obligation to the township nor of his untiring efforts on behalf of the municipality in areas involving other levels of government.

We would like to think that there is some way of inducing the reeve to change his mind on this matter and this thought is shared by numerous other concerned rate-payers.

Since this is not too likely a development, at least at this moment, residents of Stanhope will have some serious thinking to do between now

and the November municipal elections.

Some contentious issues will probably have to be met by the next council and the worst thing that could happen to Stanhope would be to have the future council loaded with inexperienced personnel.

It is for this reason that it would be a matter of good judgement to encourage those with some experience to run again in the November elections.

The Stanhope Recreation Committee is planning a walk-a-thon for July 15 to raise funds for its projects.

These include a tennis court, the summer swimming program, a children's program during the month of August, and also an improved facility for outdoor skating.

Applications for Culture and Recreation grants are being prepared and the public participation in the form of cash support, voluntary labour, use of equipment, donations of material or other such assistance will be important to the success of the request for grants. In any event, the Committee intends to keep any demands on the municipality to a minimum.

Chatting with Irene

I am sitting here at the picnic table in the shade while getting the column ready. The breeze is lovely and the perfume from the lilac bush helps me forget the heat. I'm not complaining for the heat is great, and hope it lasts until October, with a little rain now and again. At least we can get our gardens in, and I have some of mine in, hopefully the rest will be in by the time you read this.

Made a mistake last week in the piece about the barbecue; the social hour is from 6-7 p.m., then the supper from 7-8:30 p.m.; then the film and dance follows. This is all at the arena in aid of the County Fair, and they told me quote "the horse" radish would not be so hot."

The home of Mr. & Mrs. Floyd Miller was a busy place last Sunday when there was a family get-together before Mr. & Mrs. Garnet Coulter left on their return to their home in B.C. Relatives were present from Lindsay, Haliburton, Utterson, Kirkfield

and other parts of this province. Everyone had a real good visit.

Don't forget the Family Fun Nite at the curling rink this Friday evening from 7 to 9 P.M. Fun for all the family. Remember last year how much fun you had; it will be the same this year, so be sure and come. The proceeds go to the new Library Fund.

Muriel, Chris and Scott Ewing; and Len Carswell, visited with the Mill Sears over this past weekend.

Next Monday evening is the last spring meeting of the U.C.W. at the Church Hall, as well as the business there will be a film which was made in Haliburton County, so it is hoped there will be a good turnout. That is on June 5th at 8 p.m.

Next Tuesday evening, the 6th of June, is the regular meeting of the Minden & District Horticultural Society at the Minden Council Chambers, at 7:30 p.m. It is hoped that the members will all turn out; and please do not forget to bring the cookies you said you would make for the convention. As well as having a suggestion period, there will be two short films called "Ruth Stouts No Work Garden" and pictures of Kew Gardens. Everyone is welcome to attend these meetings, so come along.

Mary Cox, Thelma Ewing, Freda Hulbig, Alice Todd and Jeanne Sears attended the Womens Institute District Annual at Fenelon Falls last Thursday and all enjoyed the days programme.

Across the Sea of Sunny Hopes with loads of wishes true; my little ship of Kindly Thoughts goes on its way to you - and it will sail right on and on, allowing no delays, until it brings you to the Port of warm and happy days.

The Womens Institute sponsors a Public School Exhibit each year and the judging was done at the library of the Archie Stouffer Public School over the weekend. The judges were Anne Dawson, Isobel Harrison, Renie Burns, and Jeanne Sears. The prize winning entries will be on display at the County Fair, also the winners receive prizes from the W.I. The entries were in four groups and the winners of Group 1 were: 1st - Greg Stamp; 2nd - Michael Wessell; 3rd - Abby Burk. Group 2 - 1st - Shelley Barnes; 2nd - Laura Cross; 3rd - Melonie Legge. Group 3 - 1st - Tom George; 2nd - Jack Prentice; 3rd - Kevin Mantle. Group 4 - 1st - Teresa Trepanier; 2nd - Shelley Bull; 3rd - Susan Wingate.

The Agricultural Society held a meeting last Wednesday evening and I'm sure it was very disappointing to the president and executive that so few members turned out. You all realize that the County Fair is only about 2 1/2 months away and you are all needed to help make the final decisions. It should not be left for a few, as it is your Fair, as much as anyone elses, and you are needed, so please remember that and when the next meeting is called, do try and be there.

I must not forget the birthdays for June at Hyland Crest. They are as follows: June 4, Isabella Shay; June 14, Robert Kernohan; June 16, Eleanor Law; June 27, Agnes Lansfield and Ada Lewis. Everyone likes to receive cards and I know you won't forget.

After this week I will have to give you the County Fair Needlecraft & Domestic Science in parts, that is why I left them till the last. This week I

will give you Floral:

1-Begonias, 3 blooms floating in water; 2-Dahlias, cactus, 3 blooms; 3-Dahlias, large, 3 blooms; 4-Dahlias, pom-pom petite, 5 blooms; 5 to 10-Gladioli, 1 spike, colors white, yellow, pink, red, dark, mauve; 11-Gladioli one spike any other colour; 12-Gladioli, 5 spikes any colour; 13-Gloriosa Daisy, 5 stems; 14-Lily, any variety, 1 stem; 15-17-Marigolds, large mum, French medium & petite; 18-20-Petunias, double, single, ruffled; 21-Pansies; 22-Phlox; 23-Snapdragon; 24-Sweet Peas; 25-Zinnias, cactus; 26-Zinnias, dahlias; 27-Zinnias, pom-pom; 28-Any annual not listed above, named; 29-Any perennial not listed, named; 30-Best flower to be shown as such.

Potted plants - 31-Double African Violets; 32-Single African Violets; 33-Fibrous

Begonia; 34 - Gloxinia in bloom; 35 - Geranium in bloom; 36-Impatiens plant in bloom; 37-Upright Tuberous Begonia; 38-Any house plant not listed above.

Miscellaneous - 39 - Corsage for brides mother; 40 - Arrangement of weeds, mixed; 41-Novely flower arrangement for 10 year old boy; 42-Bridesmaid nosegay shades of pink, rose and white flowers; 43-Dining table display not over 8" high.

Specials - 44-Candle arrangement, yellow & gold flowers; 45-Peppermint stick colours, an arrangement of pink and/or red and white garden flowers; 46-Rainbow Charm for coffee table; 47 - Hanging pot display in bloom; 48-Hanging pot display of greenery.

That my friends is the floral and I hope you have some flowers at the Fair.

Crack the salads to the family, as it is too hot for heavy meals; do hope they like salads as much as I do.

Adios and take care now. Don't work too hard.

The fit never quit.

Maple lake

from page 11
trip to Moosonee. These voyagers will certainly have some interesting pictures and accounts of their journey to relate when they return the last week in May.

Mr. & Mrs. Harry Davis were surprised by friends and relatives on the occasion of their thirty-fifth wedding anniversary on Wednesday, the 15th of May. Harry and Irene recalled that their wedding was originally planned to take place in St. Peter's Church, Maple Lake, but due to transportation difficulties during World War II, it was decided to hold the wedding in the Church of the Redeemer situated at Avenue Road and Bloor St. W.

We join in wishing Harry and Irene many more years of happiness.

By the looks and sounds of the traffic on St. Peter's Rd. and Hwy. 530, Friday P.M. and Saturday A.M., every cottage will be filled for the first long summer weekend. Let's hope for good weather.

The Bishop & Mrs. Marsh night on, "The Yukon", hosted by St. Peter's Church last Thursday, May 25, was very well attended both by local and summer residents. The pictures of Yukon resi-

dents, their activities, their homes and their villages and cities were most interesting, showing how different their way of life is from ours. In Mrs. Marsh's commentary Cont'd. page 16

Smiley

from page 5

trained for. Maybe my son Hugh had some psychic foresight. He took off for Paraguay, as a Ba-hai pioneer, three years ago, and is living happily, hand to mouth, without having to go through the humiliating search for a way to put food in his mouth.

Max Braithwaite, whose Why Shoot the Teacher has

been made into a popular movie, perhaps should have stuck a "not" into his title. Shoot the poor young devils and put them out of their misery. Or shoot a bunch of us old codgers with our stale ideas and antiquated teaching methods, and give the jobs to the young ones.

Anybody got a job for my kid?

Coboconk

from page 11

Sincere sympathy to the relatives of Victor Sedgewick who passed away last week. Victor had been living at Kinmount for some time and lived in Coboconk some years ago. He was the son of Mr. & Mrs. E. Sedgewick of Gellert, and his young son, living with his grandmother here, mourns his passing.

Don't throw out those old curtain rods. If you fasten them to the back of a closet door, they are good shoe racks.

Pizza season is here! When making pizza, often it is hard to remove from the pan. Gently lift the pizza with a spatula, use your kitchen shears and cut in desired pieces.

How about a Snowball Salad for a light lunch: 1 - 8 oz. pkg. cream cheese; 1/4 cup finely chopped black walnuts; 10 canned pear halves; 2/3 cup shredded coconut; lettuce, mayonnaise thinned with a little half and half or cream. Mix most of the cream cheese with the walnuts and form into balls. Press two pear halves together over each cheese and nut ball. Spread outside of pears with remainder of cheese and roll in coconut. Serve on a bed of lettuce with mayonnaise at the side of each pear. May your lawn keep green and the black flies all go away.

DECORATION DAY AT GLAMORGAN TOWNSHIP CEMETERY SUNDAY, JUNE 11, 1978 AT 2:00 P.M.

In case of rain,
service will be held at

**GOORHAM
PENTECOSTAL CHURCH**

Municipality of Dysart et al

NOTICE

IN THE MATTER OF THE MUNICIPAL ACT AND IN THE MATTER OF A PROPOSED BYLAW OF THE MUNICIPALITY OF DYSART ET AL TO STOP UP CLOSE AND CONVEY A PORTION OF PART OF LOT 20, CONCESSION 11 IN THE TOWNSHIP OF HARCOURT, IN THE PROVISION COUNTY OF HALIBURTON.

NOTICE IS HEREBY GIVEN, pursuant to Chap. 284 Sec. 443 of the Municipal Act as amended, that the Township Council of the Municipality of Dysart et al proposes to consider and if deemed advisable, to pass at its regular meeting to be held at the Council Chambers, Haliburton, Ontario on Monday, June 12, 1978, a Bylaw to Close, Stop up and Convey the following:

ALL AND SINGULAR that certain parcel or tract of land and premises, situate, lying and being in the Township of Harcourt, in the Provisional County of Haliburton, being composed of Part of Lot 20, Concession II, in the said township, and which said parcel or tract of land is more particularly described as follows:

Maple Lake

from page 12
we were one with the Marsh's throughout their period of service in that vast area. The work of the Bishop wasn't always easy, but with a help mate, such as Mrs. Marsh, who worked with the children teaching and guiding them, many a rough assignment was made less difficult. They thoroughly enjoyed their 3 years there. Following the slides, St. Peter's ladies served refreshments downstairs.

While here, the Bishop and his wife were entertained by the Clarence Redners and the John Barclays. The Barclays kindly gave our honoured guests the use of their cottage on the Maple Lake shore. Being avid bird watchers and bringing their own canoe for that purpose, they spent much of their free time paddling through Maple & Grass Lake areas. Friday evening, at 8:50, the Marsh's appeared at my door, having crossed the lake in the twilight. After a ten minute stay they set out across the lake to the northeast shore to the cottage. Being experienced canoeists, the deepening night didn't alarm them, and as they drew near the cottage, their voices could be heard

making "A joyful noise unto the Lord." We hope to have another visit from the Marsh's, if all is well, perhaps in two years time.
The sound of wedding bells can be heard today when Brenda Cook is being united in holy matrimony with Dan Harding. I understand the wedding service is being held in the Century United Church at the head of Maple Lake. Both participants being local young folk, we are really interested in their welfare, and the whole community joins in wishing Dan and Brenda every happiness in their life together. Congratulations, Dan, in winning such a fine help mate.

A number from here attended the choir concert in the Hyland Crest Home last Tuesday evening and thoroughly enjoyed every number. Under the capable direction of Marilyn Stouffer, this choir can go a long way. Among the interesting extra numbers sang during the evening was a lovely duet "In the Garden of my Heart" rendered by Mr. & Mrs. Clark of our own St. Peter's Road. Piano selections by famous composers were also part of the evening's programme, by one of the choir members, Maggie Milne.

Gems of Truth

from page 9
fied Jesus would forgive them and bestow on them the gift of the Holy Ghost.

Here, repentance and baptism were the conditions laid down, in order to receive the indwelling presence of the Holy Spirit. Previously, on that same day, He had been received upon a period of waiting and praying. Those recipients were, however, all Jewish believers, as we have stated before.

Some time after this occasion, Philip went down to the Samaritans. Here, the believers did not receive the Holy Spirit upon repenting and being baptized. Not, until the Jewish brethren, Peter and John, came down

from Jerusalem, and prayed for them, and laid their hands on them, did they receive the Holy Ghost (Acts 8:14-17).

These Samaritans were not Jews, and did not belong to the circumcision. They were rather, a despised people among Israel, who were classed as dogs, because of their half Jewish blood relation. This barrier had to be broken down. Therefore, it was not until Peter and John ministered unto them, that the Holy Spirit knit these Samaritans into the same body of believers.

Without a doubt, this was a stepping-stone into the fuller revelation of the Holy Spirit. God had revealed His plan.

lie and George Robertson.

20 cents

Haliburton County residents have flocked to the water in the past few days to experience their first swims of the season. This was the scene at Rotary Beach in Haliburton. Monday night as dozens of children and parents enjoyed an after supper swim to escape the heat.

Expected to cost between \$260,000 and \$300,000

Minden curlers plan new rink

Anson, Hindon and Minden council last week approved in principle a proposal from the Minden Curling Club for the construction of a new curling facility in the village. The proposed building would be built adjacent to the Minden arena, and would use the existing arena wall on one side.

pected to cost between \$260,000 and \$300,000. The proposed building would have three levels, with shower and locker facilities, a kitchen and dining area, and a lounge viewing area, as well as four sheets of ice. Jackson said the committee anticipates that \$180,000 to \$200,000 in grant money might be made available for the project. Donated labour, and existing club money could be used for the project, leaving as little as \$50,000 to be raised.

The club presently uses two ice surfaces in a quonset hut structure on municipal park land. If the new facility is built, the existing structure is expected to be used by the Minden Agricultural Society, Jackson said.

Jackson said the building committee proposal will be taken back to the club executives and will then be submitted to the club members for approval. That approval could come within the next three or four weeks, Jackson said.

The building committee hopes work on a new facility can begin as early as July or August, with completion by January or February.

Alex Miller and J.O. Jackson of the clubs building committee told council the facilities would be designed for use by a number of organizations both during and between curling seasons. Jackson said Monday the project, as conceived by the building committee, is expected to cost between \$260,000 and \$300,000.

A continuing trend toward declining enrolment could result in a loss of some 320 students in Haliburton County schools by 1981, according to figures released at a meeting of the Haliburton County Board of Education last Tuesday. The figures, compiled by the Board's director of education, J.D. Hodgson, show 1977 enrolment totalled 1486. By 1981, that number may be as low as 1166, Hodgson's report indicates.

The figures, based on census information, county birth statistics, and present numbers of students in public school grades, are intended to provide the board with a guideline, and the figures represent the lowest possible enrolment, Hodgson said. He stressed that no allowance for growth in the county was made in compiling the statistics. But the director of education said he felt the

ment totalled 1486. By 1981, that number may be as low as 1166, Hodgson's report indicates.

figures were "a fairly realistic projection." "In the next three years, we'll have to reduce our teaching force in the elementary schools by ten or a dozen teachers," Hodgson said. "I think attrition (teachers leaving or retiring) will take care of it in the secondary schools."

Kelly Youngdale, a grade 1 student at Victoria Street School operated the controls of the time machine which took the audience back in time to the age of dinosaurs. The play, written by the students, was performed for an audience of parents and other pupils on Wednesday.

Declining enrolment may cost jobs

A continuing trend toward declining enrolment could result in a loss of some 320 students in Haliburton County schools by 1981, according to figures released at a

meeting of the Haliburton County Board of Education last Tuesday. The figures, compiled by the Board's director of education, J.D. Hodgson, show 1977 enrolment totalled 1486. By 1981, that number may be as low as 1166, Hodgson's report indicates.

The figures, based on census information, county birth statistics, and present numbers of students in public school grades, are intended to provide the board with a guideline, and the figures represent the lowest possible enrolment, Hodgson said. He stressed that no allowance for growth in the county was made in compiling the statistics. But the director of education said he felt the

Stanhope budget up only slightly over '77

Stanhope Township residents will be facing an overall increase of 2.29 per cent in municipal taxes this year, as a result of the new budget for 1978.

School residential costs will increase 12.47 per cent and county residential millrates will increase 8.89 per cent overall.

Actual 1977 expenditures

in the municipality were \$151,098, an increase of more than \$21,000 over the estimate of \$129,650. The 1978 estimate is \$132,685.

Gerald Bain, clerk for Stanhope, stressed that much of the difference between these two figures was due to government loans and grants included in the costs of the '77

Cont'd, page 2

Whew! It's been hot!

Cooler temperatures are coming, weatherman says

Haliburton County residents who have been sweltering in a hot office or on a hot beach this past week can take heart - the weatherman says temperatures are going to become a little more tolerable.

Ray La Roche of Environment Canada, in Peterborough, also says that even though temperatures have been unusually high for this time of the year, they have not been record-breaking. In fact, at the same time last year, temperatures were also higher than average.

But over the next few days, the heat wave should break and the weather will become unsettled with occasional chances of showers. Thursday and Friday should give us highs of 25 and lows of 12 during the nights.

For the weekend, however, the temperatures

should drop to the low 20's and stay sunny until Monday.

The long-range forecast through mid-June indicates a drop from normal seasonal temperatures. Temperatures ranging from the high teens to the low twenties should dominate the weather picture over most of central and northern Ontario for the next few weeks.

For the past 18 days, the temperatures have obviously been above normal - four to seven degrees above normal in fact. What's been causing it?

La Roche says that "it's just one of those things," and that we'd "better not start complaining now, since the summer hasn't even started."

Meeting will be sought with County Council

Planning council to urge consolidation

Consolidation of social services in Haliburton could result in cost savings, as well as improved social services for county residents, according to Bert Costello, director of social services for Victoria County.

Speaking at a meeting of the Haliburton Co. Social Planning Council in Carnarvon, Thursday, Costello said the provincial government favours consolidation of social services at the county level. He said Haliburton is one of only five counties in the province which have resisted consolidation.

Social services in Victoria County came under county wide administration in 1967, Costello said. At the time the move was made, there "were a couple of county councillors who were against it," but he said the present council is unanimous in their approval of the consolidated system.

In Haliburton County, welfare payments are administered at the municipal or township level by clerk-treasurers or bylaw enforcement officers. Few social services are available, and individual needing special counselling must often travel long distances to seek it.

Haliburton County clerk, Winn Lahay, said Tuesday that county council has discussed the idea of consolidation in the past, but has rejected it, partially because of a fear of increased costs under a central administration and partly because of a feeling among councillors that the system of welfare payments is working adequately at present. Council felt the system "could become a giant" under consolidation, the county clerk said.

Costello presented rough dollar estimates at the Carnarvon meeting which showed costs could remain at close to their present level, while

Year round fine arts program planned

The county of Haliburton may soon have a year-round fine arts program which would offer a film-rental service, craft shows, theatre and other activities.

The services will be offered by the Haliburton Highlands Guild of Fine Arts. Carole Finn, one of the directors of the project, says plans are under way to organize and establish the services. "At present, we're exploring things to find out exactly what is happening and what will be happening," she said.

The purpose of the project will be to bring art and craft shows into the community in addition to providing the public with specific services such as student activities and a picture-loan service.

Cont'd, page 2

services would improve, under a central welfare administration office for the county.

Actual per capita costs for welfare assistance in Haliburton County were 36 cents in April, Costello said, while in Victoria County, the per capita cost in April was 33 cents, including administration costs.

The provincial government pays a 50 per cent subsidy on administration costs for welfare programs, Costello said.

One member of the audience said there is an "incredible bias" on the part of some municipal clerks against welfare recipients, and pointed out that professionals administering the payment of welfare benefits would have a different attitude.

Social planning council chairman, Dave Woodall, said it was unlikely county council would move toward consolidation unless documents could be produced to show that the benefits of a central welfare administration and consolidated social services would outweigh any cost increases that might be incurred.

A committee was formed to investigate the benefits of consolidation, and to prepare a proposal which is expected to be taken to county council in the next few months.

Tom Little, an unsuccessful candidate for the Haliburton County Board of Education in 1976, was appointed to the board last Tuesday, following the resignation of Scotty LaRue.

LaRue, along with Jack Brohm, recently purchased the school bussing operation of Travelways Bus Lines, and the resignation came as a result of conflict of interest stemming from the purchase.

LaRue was himself appointed to the seat in December, following the resignation of Rick Poole, Chairman of the board, who left the Haliburton area for a job in Winnipeg.

Little was present at the board's meeting last week, and told the board he had polled more than 400 votes in his unsuccessful bid for election in 1976.

Little, who is a resident of Haliburton, is married and has one child.

He will hold the seat until November when the present board's two year term in office expires.

LaRue was himself appointed to the seat in December, following the resignation of Rick Poole, Chairman of the board, who left the Haliburton area for a job in Winnipeg.

Concrete plant may be built in Haliburton

A concrete products manufacturing plant could be built in Haliburton in the near future, if there is a sufficient market to warrant constructing the plant.

Don Shortreed, Manager of the Brooklin Concrete Products plant in Huntsville said Tuesday that the company hopes it can set up a manufacturing plant in Haliburton eventually.

The company has obtained the vacant lot located between LaRue Motors and the Brewers' Retail outlet on Hwy. 121. At the May meeting of Dysart council, approval was given to seek a zoning change for the property, to light industrial from its present highway commercial designation. A 300 foot wide strip, adjacent to the highway, will remain commercial, however, council decided.

At the outset, the company will set up a retail outlet on the property, Shortreed said. Concrete products will be brought to the Haliburton location from Brooklin's other plants in Huntsville and Brooklin. Shortreed said an office building will be erected on the site within the next two months, and a garage is also planned to house a company vehicle.

The Huntsville operation manager said "there's nothing definite right now" on the possibility of a plant on the site. "It's quite a costly thing to set up a manufacturing plant, and the market would

Cont'd, page 3

Mark Lardner was still running hard at the finish of the 13 mile half marathon race in the Haliburton area Sunday afternoon. The race drew 14 entrants, 9 of whom managed to complete the full distance.

Stanhope reeve stepping down, may run in Minden

Sinclair Nesbitt, reeve of Stanhope for the past eight years, will not be seeking the job for a fifth term when municipal elections are held in November. Nesbitt made the announcement last week at a meeting of the Maple Lake Cottagers Association.

"I'm a mountain climber," Nesbitt said in an interview Monday, "and there isn't a whole lot more to be done in Stanhope."

During the terms in which he has headed Stanhope

council, Nesbitt has seen the township acquire a new library, fire hall and township garage. In addition, the roads department has been greatly expanded.

Though he has decided to step down from the job of reeve in Stanhope, Nesbitt may not be giving up municipal politics.

"I'll take a long look at it here locally," he said. "I'll be available if anybody wants me in Minden."

A Harcourt youth was taken to Haliburton Hospital Thursday night following the crash of a pick-up truck on the outskirts of Haliburton village. The truck, driven by Terry Sutherland, of Minden, came to rest in about a metre of water in Head Lake.

Several injured in area vehicle crashes

A Minden man was charged with impaired driving following a single vehicle accident that sent a Harcourt youth to hospital.

Minden OPP say a 1976 pick-up, driven by Terry Sutherland, 22, of Minden, was westbound on Highway 121 just outside of Haliburton when the vehicle went out of control, entered the north ditch, and rolled over. The truck came to rest in Head Lake, in about a meter of water.

Dwayne Thompson, 17, of Harcourt, a passenger in the truck, suffered an apparent

broken arm, and was taken to Haliburton Red Cross Hospital.

Damage to the truck was estimated at \$2,500.

Two people suffered minor injuries in a single vehicle crash Sunday evening.

Minden OPP say Alfred Treen, 46, of Whithy, was westbound on Highway 121 east of Minden, when the 1972 car he was driving entered the south ditch, striking a hydro pole and a tree. Treen suffered minor

injuries and was taken to Minden hospital. A passenger, Clara Treen, age 45, also suffered minor injuries in the mishap.

Alfred Treen was charged with careless driving. Damage to the car was estimated

at \$1,000. In yet another single vehicle crash, a Gormley man suffered minimal injuries, early Saturday morning when the 1977 pick-up truck he was driving went out of control on Highway 35 south of Minden.

OPP say Matthew Crane, 18, was southbound when he entered the west ditch and struck a rock cut.

Damage to the pick-up was estimated at \$800. A single vehicle crash on

Cont'd. page 3

Two youths charged with theft

Two 16-year-old youths were charged with theft under \$200 and with possession of stolen property valued at more than \$200, following an incident in Haliburton last Tuesday morning.

Minden OPP report two persons removed \$50 from the till of Stan's Texaco at

about 8:15 a.m., Tuesday, and then left the area.

A search for a car seen leaving the gas station resulted in the discovery of the car stuck in a ditch.

The vehicle, a 1978 stationwagon, had been reported stolen in Uxbridge that same morning.

Charged were Robert Scott Pascoe, of R.R. 1, Sundance, and Michael Evans Keirstead of no fixed address.

The two were charged with theft under \$200, possession of stolen property under \$200, and with possession of stolen property valued at more than \$200.

OPP report

During the week of May 22 to May 28, the Minden detachment of the Ontario Provincial Police report the following activity:

During this period the staff investigated 13 reportable and three non-reportable motor vehicle collisions. There were 103 general occurrences. Five break-ins were reported. Five persons were charged with liquor violations and three persons were charged with impaired driving.

Thirteen persons were charged with boating violations. Two compassionate messages were delivered.

Travel agency opening

Haliburton will be getting its own travel agency in the near future.

Les Hughes, who previously owned the Highland Shoe and Tack store in downtown Haliburton, is selling out and moving into his office beside Arrow TV. Hughes is now an agent for Simpsons Department Stores, Victoria

Cleaners and the Travelways Bus Company.

He is a licensed travel agent and will be providing the community with bus and airline ticket service.

Buses which used to stop on the main street will now discharge and load passengers at the office driveway next to Arrow TV.

Guild of Fine Arts plans year round program for the Arts

from page 1

The film rental service is expected to start sometime in July. Persons who rent the films will have the option of either buying or just renting the film for as long as they want," says Finn.

Committees will need to be established in each community where the programs will be offered so the physical work will be up to each individual community.

Members of the present committees are now preparing reports on the feasibility

of music, theatre, craft shows fine arts shows and student related activity programs. An advisor is assisting the Guild by phoning around Toronto and gathering information which may help in the project.

When asked whether she thought there was an interest for such a program in the community, Finn said that "people are more receptive to it now. It's always a good selling program."

She said the Guild had tried a similar program about 10

years ago, but there were not enough people interested to keep it going permanently.

"We have to keep the project portable and go from one community to another, and not keep to one area," she

said.

The Guild is also attempting to become a member of the Ontario Association of Art Galleries. However, Finn says, they would not be able to become a full member

since no one in the Guild is a paid art director.

There will be a meeting of the Guild on June 21, at 7:30 P.M., at the Lakeview Centre and anyone interested in the project is urged to attend.

Correction

An error appeared in an article on page one of last week's Echo concerning an incident at the Rockcliffe Hotel. OPP Constable Wim Magee, has supplied the following correction of information supplied to the Echo by the Minden OPP.

The person charged with assault causing bodily harm,

following an incident May 20 at the Rockcliffe Hotel, in Minden, should have been Graham Gordon, age 19, of Rexdale, rather than Gordon Graham. The name confusion resulted from an alias being provided to the OPP. The OPP regret any inconvenience caused by the use of the improper name.

Stanhope budget

from page 1
actual expenditures. He added that the reason for the increase in education costs is a cutback by the provincial government in these grants to the various municipalities.

B of E announces change in school period

The Haliburton County Board of Education has been considering the attendance rules regarding the period from 3:05 to 3:30 P.M., known as the Extra-Curricular period. New rules have been devised in this regard and it is important that parents note the conditions as described below: Doug Hodgson, director of education for the Haliburton Board of Education says.

Buses leave the high school at 3:35 P.M. and students must board the bus at the high school only. The activity period from 3:05 to 3:30 P.M. is used by students for: extra help from teachers, clubs, student meetings, intramural sports, etc. Students are encouraged to participate in these various activities and use the period of time to their advantage. However, if a student must leave the school site during this period of time, he/she will not be supervised and will be responsible for his/her own welfare.

It is very difficult to operate such a period in a secondary school and the members of the Board hope that the parents of the students in the school will actively support the various activities and encourage their young people to participate.

ONTARIO

BLUE CROSS

A DIVISION OF THE ONTARIO HOSPITAL ASSOCIATION

13 miles of running - you've got to be in shape

Fourteen runners showed up Sunday afternoon at Haliburton Highlands Secondary School for a thirteen mile half marathon race along Hwy. 519 to

Donald. Seven of the runners managed to complete the distance in under two hours.

Despite oppressive heat that left by-standers panting, nine of the fourteen runners who competed in a 13 mile "half marathon" race Sunday, managed to complete the course, seven of them in less than two hours.

The race, which was organized by Haliburton physicians Blair Pierce, Bob Heyes and Karl Hartwick, attracted runners from Haliburton, West Guilford, Irondale, Orillia, Minden, Carnarvon and Oakville. A three mile "fun run" for less experienced runners drew only two participants.

The course began at Haliburton Highlands Secondary School, and extended along Hwy. 519 to a mile and a half past Donald, where the runners turned around and retraced their route. Several water stops along the way refreshed the runners, some of whom found the distance impossible to complete under sunny skies and temperatures that rose well into the 80's.

First across the finish line was Blair Pierce in a time of 92 minutes. Second was Bob Heyes in 94 minutes, followed by Alan Cooper, the first student to finish the race, who came in in 98 minutes.

Other finishers were J. Fecht of Irondale, 101 min.; K. Hartwick, 102 min.; M. Lardner, 112 min.; P. Madden, 114 min.; J. Stuart, of Orillia in 131 min.; and J. Baily of Haliburton in 134 min.

Those who started the race but could not finish were A. Bachom, Oakville, 12 1/2 miles; J. Tomlinson, Carnarvon, 12 miles; H. Roodenberg Minden, 8 miles; B. Stevens, West Guilford, 4 miles, and B. Cooper, also of West Guilford, 4 miles.

Running the three mile leg were Ken Rydman and Frank Powers.

Gordon Wolsey, left, manned a water stop at the halfway point of the half marathon race Sunday. Competitor Art Bachom took advantage of the stop

to cool off his head before continuing on the second leg of the race.

Haliburton physicians Bob Heyes and Blair Pierce led from start to finish of Sunday's thirteen mile half marathon road race. Pierce finished first with

a time of 92 minutes, followed by Heyes who completed the distance in 94 minutes.

Stanhope withdraws appeal

Stanhope Township council has withdrawn its application for a review of the 1978 county school board levy. The decision came officially at council's regular May meeting.

The move was not made without protest, however. Council passed a resolution that will be sent to the Ontario Cabinet, noting that the Ontario Municipal Board, while acting as a "quasi judicial body" seems to be supporting provincial policy in denying appeals against school board levies. "This opinion" the Stanhope resolution goes on to say, "results from recent decisions received with respect to the county and the school board apportionments made by (Stanhope Township) whereby (Stanhope) is suffering financial

loss due to market value assessment not being implemented or considered.

In other business, council authorized the 414 squadron of the Canadian Armed Forces to provide a fly-past by T-33 jet at the Stanhope fly-in to be held June 11. Council noted it understood the minimum altitude of the aircraft will be 300 feet.

Council gave clerk, Gerald Bain, permission to authorize the free installation of smoke detectors by the Fire Department members in the existing homes of senior citizens, subject to the detectors being purchased by the home owners. Those who qualify can call the Township office.

Council voted to appoint Barbara Nangle, David McKinlay, Toos Ried, John Barclay, Alex Stevenson,

Janice Barnes, Ray Woodward, Elvin Johnson and Jim Harrison, to the Stanhope Recreation Committee for the balance of the 1978 year.

Council acknowledged receipt of a proposed Development Agreement from Deane Ewart, Barrister and Solicitor, with respect to the proposed Subdivision on part lots 29 and 30, Township of Stanhope. Council noted it wishes to further review the proposed agreement and also obtain legal opinion on the document prior to further discussion on the matter.

Mrs. John Barclay was appointed to the Minden Red Cross Hospital Society.

James Moore was authorized to attend the Ontario Association of Property Standards Officers Seminar to be held May 17, 1978 at Sir Sandford Fleming College, Peterborough.

Council confirmed the remuneration of council members for 1978 will remain the same as the 1977 rates.

The 1978 general estimated budget of \$132,685 was accepted.

Council authorized the purchase of road culverts from E.S. Hubbel and Sons Ltd. as per quoted prices to the Provisional County of Haliburton, subject to approval of the Ministry of Transportation and Communications.

The township will seek to obtain approval from the Ministry of Transportation and Communications for the topping of the Airport Road and the North Shore Road.

Council accepted the quote from Canam Oil Services for

the supply and application of approximately 42,000 gallons of road oil at a price of 32.2 cents per imperial gallon, subject to approval of the Ministry of Transportation and Communications.

The tender quote of \$90.72 per ton, for the supply of 10 ton of Bagged Calcium Chloride, from Allied Chemical Ltd., was accepted as was quoted delivery price of \$18.00 per ton from Bill Davidson, subject to approval of the Ministry of Transportation and Communications.

Council accepted from the Ministry of Transportation and Communications, property located on part lot 31, conc. A, Township of Stanhope, more particularly described as parts 1 and 3 on Plan 2651-85 and Part 1 on Plan 2651-86 and the clerk authorized and directed to proceed with registration of related deed.

Council also authorized the advertising of a proposed original allowance for road closing on Part lot 31, conc. A, more particularly described as parts 1 and 2 in a Plan of Survey prepared by H. Curry Bishop, O.L.S., and dated February 4, 1977.

A resolution was passed to "accept the kind offer of the Minden and District Horticultural Society" to provide and maintain a flower bed in front of the Municipal Office for the cost of the plants and the right to have a small credit sign in the bed.

Payments were approved under the Canada Works Program, Phase II, in the amount of \$19,460.09.

Accidents

from page 2

Highway 519, near Haliburton, Sunday afternoon, resulted in \$1,500 damage to a 1976 pick-up truck.

Diane Gervais, 18, of R.R. 2, Haliburton, was eastbound on Highway 519 when she lost control of the truck and it entered the south ditch, striking a tree.

Concrete

have to warrant it." "We're keeping our options open" he said and "we hope we can get into the manufacturing."

Work on the office and garage are expected to begin once severance procedures have been completed. It is expected that at least one person from the area will be employed in the retail operation.

Enrolment

from page 1

teacher salaries. He added, however, that inflation could negate any savings from a reduction in the number of teachers in the system.

The present pupil-teacher ratio in Haliburton schools is 20 to one, Hodgson said, below the provincial average of 23 to one.

Declining enrolment is not expected to result in a reduction in that ratio, Hodgson said.

Attention Community Groups and Organizations

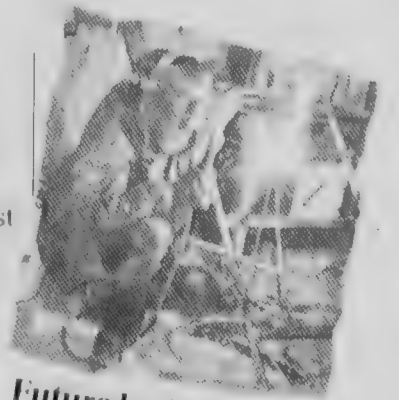

Look how Canada Works works for us.

Rescue unit formed by Canada Works project.

Our children on trail of nature.

Future looks good in job training class.

New jobs. And a better place to live. Canada Works, a Federal Government job creation program, has done it before and Canada Works can do it again.

Get your group to agree on a project you can all support. Most importantly, it must make use of and improve the skills of unemployed people in your area, create at least 3 new jobs, and make for community benefits that last.

Complete your application carefully and on time.

If your idea is good enough, Canada Works may be able to contribute to the necessary funding.

To apply, just go to your closest Canada Manpower Centre/Canada Employment Centre or Job Creation Branch Office. Pick up the application form and the "Guide to Applicants".

Canada Works is for your community. Your province. Your country. For all of us. So let's get working on some new ideas.

THE HALIBURTON COUNTY ECHO AND MINDEN RECORDER

Echo Editorials

A proposal worth considering

The Haliburton County Social Planning Council last Thursday discussed the possibility of consolidating social services in the county, under a central office. The group intends to make a presentation to county council in the near future, in hopes of demonstrating the benefits of consolidation. County council should give that presentation some serious thought.

At present, social services in the county are less than adequate. Welfare is administered by municipal clerks and bylaw enforcement officers who may be well meaning in their efforts, but who lack sufficient training to deal effectively with the multitude of problems people face.

The prevailing attitude in the county has always been that local people can take care of other local people in need. It is an admirable attitude, but it's one which is no longer sufficient. More than well meaning charity is needed to deal with the complex reality of social problems.

Under consolidation, a central welfare administration office would be set up, with a full time staff of one or two people visiting individual welfare recipients, and providing advice and counselling.

Handing out welfare cheques at the municipal level, as is now done, is a simple matter. And in many cases, it may be essentially harmless. But handing out cheques doesn't get to the heart of the problem, and it doesn't help people with problems work toward economic self sufficiency and social respectability. Trained welfare administrators could spot problems that needed special attention, and could see that expert counselling in the proper area was provided, through other social service agencies.

The Social Planning Council is made up of concerned individuals, many of whom have a great deal of training and expertise in social work.

County council should take their proposal seriously when it comes.

A double edge

Figures released last week by J.D. Hodgson, director of education for the Haliburton County school board, reveal a startling trend toward declining enrolment in county schools. Though the figures in Hodgson's report are not absolutes, they are an educated guess based on census figures, birth statistics and known dropout rates throughout the school system. This year there were 1,486 students attending Haliburton County schools. By 1981, if Hodgson's figures are correct, the number of students will have fallen to 1,166.

In other areas of the province, notably in Toronto, the problems created by declining enrolment have come to a head. In North York, a large number of teachers who are currently working will not have their contracts renewed. There are not enough students to warrant keeping the teachers, and class sizes are not being reduced, primarily for economic reasons.

In Haliburton County, the effects of declining enrolment have so far been little felt. The natural decline in student numbers, when it has occurred, has been matched by teacher retirements, or by the number of teachers who leave their jobs in Haliburton County for one reason or another.

Now, however, the situation is becoming more serious. If the projection released by Hodgson is accurate, Haliburton County will have 320 fewer students in its school system by 1981 than it has this year. That means fewer teachers will be needed. Hodgson said the board anticipates as many as 12 fewer teachers will be needed to maintain the same ratio of pupils to teachers in 1981 that exists in the system this year.

Declining enrolment is a problem with a double edge. Reducing the number of teachers, if it must be done, will inevitably cause hardship and hard feelings. Programs may have to be phased out as fewer and fewer students choose to take them, a move which would inevitably result in a reduction in the quality and variety of education in the County.

Declining enrolment could also be used to advantage if it resulted in smaller class sizes and a greater degree of individual attention to students in the classroom and outside it.

Letting teachers go as enrolment falls makes sense under the prevailing conditions of a depressed economy. It may not, however, be in the best interest of a quality educational system.

Declining enrolment is a fact. Whether it results in a stronger or weaker educational system is a matter for the taxpayers, through the Ministry of Education and through the local board of education, to decide. It's a decision that will have to be made in the very near future.

The "Highlander's" bell

Letters to the Editor

Editor's Note: The following is a copy of a letter sent to Mac Ellis, water control technician for the Trent-Severn Waterway system.

Dear Sir:

I live on Eagle Lake in Haliburton and I am one of the people you mentioned in your letter to the Haliburton Echo of May 17 who objects to the extremely high water levels this spring and also the very low levels of last fall.

Our concern is with the great fluctuation of water levels in one year. These extreme high and low levels are hazardous to all wild life. If the high level of spring is not maintained, the water birds nesting is endangered. If the water is going down in the fall, the fish spawn then the eggs die. Plant life suffers as well with great change.

We would like to see reasonably high levels in the spring, maintained until after the nesting season, mid June perhaps. The levels lowered gradually in the summer and a comfortably lower level through the fall spawning season with a higher level in November for the safety of our water lines.

We are quite aware of the need to control these lakes for the vacation waterways, we just want to make sure that our wild life is protected as much as possible.

Thank you,
Catherine Denholm,
Eagle Lake, Ont.

To the Editor:

In reference to your front page story "after fight in area hotel."

I wish you would get the facts right in your choice of description "after fight" and "following a fight."

What happened was unprovoked assault, that being one punch. There was no exchange of blows, nor previous conversation.

I would also like to point out that the name of the man charged was incorrect as you ran it.

Sincerely,
Dave Willis,
Minden, Ontario.

To the Editor:

Last week's issue of your paper contained an account of an assault at the Rockcliffe Hotel involving my son, Stephen O'Brien.

I believe that the Ontario Provincial Police report which you received listing the incident as a "fight" was misleading and perhaps responsible for your article to state that the assault occurred "following a fight."

The fact is that no fight whatsoever occurred. Stephen O'Brien was the victim of an assault by a total stranger, which came as a complete surprise to him and was unprovoked by him. These facts can all be verified by the Police Department.

I would sincerely appreciate it if you would print this letter to clear up any erroneous impressions which may have been made concerning the good character of my son.

Yours very truly,
Paul S. O'Brien,
R.R. 1, Minden.

Editor's Notebook by Len Pizze

The space at the bottom of page four that is taken up by the words you're reading is something I inherited. And like the host of other things people are inclined to inherit, this space can be both a blessing and a curse.

It's called the editors notebook, and I inherited the name when I inherited the space. Now, the name is a little misleading, I have to confess. The name implies that somewhere in front of me, at this moment, I have a little blue stenographers notebook stuffed full of bits and pieces of stories and events that happened through the week. Now that little blue book would be a kind of insurance against the day (one I hate to think about) when absolutely nothing happens that's newsworthy. If the day arrived, I could just turn to my editors notebook and pick out something, somewhere, that could be turned into a story. Well, the truth is that while I do have a notebook, it isn't full of the kind of thing that I can use to fill up this space. What it is full of is longhand scrawl from phone conversations and speeches that I sometimes have trouble deciphering even five minutes after I've written it. So when it comes to writing this column, I have

to rely on something else for inspiration. I don't usually do this column until Tuesday morning, which is cutting it a little close, since the paper has to be out of here by supper time Tuesday night. But so far, that is, until today, I have managed to scrape through with one thing or another to sound off about. That's the blessing part of the inheritance. It's nice to have a chance to say what you think in the newspaper, even if very few people read it.

The curse part hit me today. I arrived this morning hoping for inspiration and it didn't come. I wrote a few news stories and waited for something to come to me, but nothing did.

Now it's 2:30 in the afternoon and I should be out at the layout tables putting together the front page and helping with others, but still nothing has come to me with which I can fill up this space.

I think I'll just have to give up. The space on page four will just have to wait until next week for something worth saying. I think I've got the answer, I'll just say, "The editors notebook will appear next week." That ought to do it.

Feir Play

by Creighton Feir

The other day when I was in Minden I met an old friend, Al Barron, who I had not seen for some time. Al at one time was employed by Ontario Hydro in Minden and he played trombone for the Haliburton County Brass Band, of which I was a member. Those were the good old days when the boys from Minden joined in with the fellows from Haliburton to form a county band. On my way home to Haliburton I recalled all the good times that we had together and one of the parades and events that we played for in the county, and some times we would venture out to play in places like Bobcaygeon and Lindsay. I shall never forget the time that we played a monster parade in conjunction with the Lindsay Central Exhibition. There were at least forty bands there that day and what a thrill it was to see bandsmen from both villages marching along side by side. We always hear it said that it's practically impossible to get the people from Minden and Haliburton to pull together, well let me tell you we did it with the band and we were one big happy family. We all got to know each other very well and at that time Slim Brandon, of Minden, was the leader of the band.

The council of the municipality of Dysart et al have advised the Echo that dumping hours at the Haliburton Dump are as follows. The Dump will be open 7 days a week and two nights. Will you please in the interest of preserving the dump, please comply with these hours. Thank you.

Construction work is well under way on the highway 35 bypass to the village of Minden. We were by there the other day and you can hardly move for equipment and trucks, trying to get the job completed. One often wonders why this work can't be done earlier on, before the traffic becomes so heavy, but you can't work while there is still frost in the ground.

Construction for the second phase of the sanitary sewage system for the village of Haliburton still continues on several streets and some of the local homeowners have been complaining of the dust. Well everyone will be pleased to note that the town streets will be paved on the last week of June.

The great Connie Mack once said "I've seen boys on my baseball team go into slumps and never come out of them, and I've seen others snap right out and come back better than ever." I guess more players lick themselves than are ever licked by an opposing team. The first thing any man has to know is how to handle himself.

The 2nd annual Highland Home and Vacation Show, which is scheduled for Haliburton on Friday, Saturday and Sunday, June 16, 17 and 18, is well under way and we understand that all of the booths have been sold. The show, which is sponsored by the Kinsmen Club of Haliburton, has turned into such a big event that this year they will be using the Haliburton Arena and the new Haliburton Curling Club to accommodate all of the booths. Kinsmen members have told me that there has been such a demand for space, that companies as far away as Peterborough, North Bay and Toronto have had to be turned away. One of the highlights of the Home Show this year will be the train show, called Lindsay Model Engineers, which will be on display all weekend in the lounge at the Curling Club. Visitors to this year's show will have the opportunity to view the new curling arena with its many facilities including two squash courts.

The New Horizons program is an ongoing project of the Ministry of Health and Welfare, aimed at assisting Senior Citizens Clubs across Canada. Bill Scott, MP for Victoria-Haliburton, said last week he was pleased to learn that a New Horizons program grant, in the amount of some \$8,000 had been granted to a group of Senior Citizens in the community of Cobocok. The "Committee of Creative Arts" headed by President, Doug Merrett, of R.R. 2, Burnt River, is attempting to develop greater interest and participation in the Victoria County choral craft and drama activities, members will put on plays, give concerts and have craft displays and demonstrations during the upcoming "Festival of the Arts."

Sinc Nesbitt, who has served as reeve and on council for the past ten years, in the Township of Stanhope, will not seek re-election in Stanhope at this year's November municipal election. Sinc Nesbitt has served his township well during these past ten years and amongst his many accomplishments has been a new township garage, a new fire hall and library. During his time in office, Reeve Nesbitt has seen Stanhope expand its roads system and department from a one man operation with a \$25,000 budget, to a five man department, with a \$150,000 budget and its own road equipment. Sinc is a progressive businessman who likes to see things move ahead and has been a driving force toward the progress that has been made in Stanhope. He will be a hard man to replace.

Lindsay merchants made their first game in the Tri-County Men's Softball League a winning one last week when they defeated Haliburton 4-1 in Haliburton. Bernie Nicholls, pitching for Haliburton, blanked the Lindsay team for five innings, but a three run sixth and a single run in the seventh decided the contest. Well, better days are ahead for the Haliburton squad and if they can get a little more hitting, they should be right up there as strong contenders for the title.

In closing this week we would like to inform our readers that we are once again running short of photos for our Pic of the Past. If you have any old photos around the home please hand them into the Echo. We would certainly appreciate receiving them and you will get them back in the same shape that you give them to us. Hoping to hear from you.

"Serving the Highlands for 95 years"

The Haliburton County Echo is an independent newspaper serving Haliburton and Victoria Counties for 95 years. Established in 1882 as The Minden Echo and Haliburton Recorder and amalgamated with The Minden Recorder in 1977. The Haliburton County Echo is published by Algonquin Graphics Limited at Haliburton, Ontario, Box 360, R.M. 150, Phone 457-1037.

Advertising is accepted on the condition that, in the event of a typographical error, the portion of the advertising space occupied by the erroneous item, together with a reasonable allowance for signature, will not be charged for, but the balance of the advertisement will be paid at the applicable rate.

In the event of a typographical error advertising goods or services at the wrong price, goods or services may not be sold. Advertising is merely an offer to sell and may be withdrawn at any time. The Publisher reserves the right to restrict all ads as to their classifications and to edit or reject any copy.

From the Chamber

by Bob Stinson

There have been a number of grand openings in the Haliburton region not the least of which was Hyland Lumber's brand new showroom. Hyland Lumber, of course, is no new comer to Haliburton, that their entry into the retail business on a grand scale is certainly new. Their new showroom is well designed and extremely functional, and with this new facility added to our existing suppliers there is certainly no reason for anyone considering renovating or building to venture outside our own area.

In Minden, Mae's Book Store is now also the Travelways Bus Depot. Don & Mae have put considerable effort into renovating a portion of the building to provide an attractive, comfortable waiting area and access has been provided for the buses to pull up on the street at the rear of the building, thereby eliminating any traffic congestion on Minden's main street. Both those travelling by bus and those using the package delivery service provided by Travelways, will find the new facilities extremely functional and convenient.

Norm Hobbs officially opened his Blue Ridge Riding Stables on the Petersen Road last weekend and was pleased to find he was operating at capacity on the Sunday and Monday. By co-operating with Woodland Ranch, Norm has been able to offer 6,000 acres of riding trails in some of the areas most picturesque terrain.

We offer our congratulations to all of the above mentioned on their grand openings and wish them much future success.

A Tour Boat's Coming

John Teljeur, president of the Lake Kashagawigamog Tourist Assoc. was pleased to confirm last week that arrangements are now being finalized for a Tour Boat to begin operation on Lake Kashagawigamog this summer. The boat is a 33 passenger craft, powered by twin diesel engines. The seating area is completely covered and there are side curtains which may be pulled down for inclement weather. Details as to where the boat will be stationed and what the scheduling will be have not as yet been finalized, but we look forward to providing these details as soon as they are available.

It has been many years since the Highlands have had a Tour Boat available for visitors and we are very pleased to find this attraction will once again be made available for visitors to the Highlands. It's presence will be a benefit to us all and we thank John Teljeur for his considerable efforts towards bringing the boat to the region.

Downtown Renewal

The Chamber's application to the Ministry of Housing for two project workers under the Experience '78 program has been accepted. Two people will be involved for ten weeks this summer in studying the revitalization possibilities for the main street of both Haliburton and Minden and preparing the proposals that eventually will be submitted to council for approval. In Minden they will be working closely with the newly formed Minden Businessmen's Association, and in Haliburton with the committee that was established to form a business improvement area. They will be surveying not only the property and business owners in town, but customers from both in and outside of the area, as well. When they have ascertained what the customers would like to see happen, and what the merchants feel is within their capabilities, the final proposals can be drafted. Some of their proposals may not be possible within the next year or even two, but hopefully with a master plan of what we hope to accomplish, we can make our towns more attractive to visit and shop in.

In Haliburton at the present time we have senior citizens apartments under construction, an addition to the legion just beginning, a new museum at Glebe Park well underway, a new I.G.A. store taking shape, sewers still being installed, and thanks to the generosity of Rex Boice, the completion of Rotary Park around Head Lake. With all these things going on it's none too soon to organize a B.I.A. program so that all these new facilities can be tied together for the benefit of the town as a whole.

When you meet these young people this summer, please give them your utmost co-operation so that their program will be meaningful and worthwhile.

Businessmen's Seminar

Last call for all businessmen interested in
Cont'd. page 11

Pic of the Past

Our Pic of the Past takes us back to 1945 on VE day and the above photo shows Harry Brohm standing beside his truck when he was in the cartage business at that time. The back of the truck is loaded with school students shouting and waving flags, celebrating the end of the war in Europe. Phurness Watt, also of Haliburton, is the man behind the wheel of the truck. Our thanks to Mrs. Phurness Watt, of Haliburton, for submitting this photo.

Bill Smiley

Anybody got a job for my kid? She's 27 years old, has three degrees, is three times as bright as her old man, can charm the birds right out of the trees when she feels like it, and is an outstanding fund-raiser (from me).

She plays the piano extremely well, the guitar rather rustily. She composes music, raucous rock or contemporary classical.

She can cook up a storm when she's at our place, although I've never had anything more substantial than a cup of weak tea and a burnt brownie at hers.

She has an erratic but brilliant academic career, liberally sprinkled with A's for essays and glowing tributes from professors. That is mainly because she can write rings around me, and comprehend abstract theses in one-quarter the time I do.

She is completely versed in all the modern psychological jargon of child-raising, but despite that has two happy, healthy children. Despite the fact that she's an ardent Women's Libber, she's still living with a male chauvinist husband and gets along pretty well with a male chauvinist father, or at least what she thinks is one.

She can type at a hell of a clip, self-taught. She has worked as a waitress, a bartender, an organist and a helper at a day-care centre. And finally, she's a consummate actress. You should hear her conning her mother into taking the kids for a week.

Now wouldn't you think that with all these attributes, she could hack some kind of living out of our economic jungle?

But no. Her problem is that she is ready, willing and able to go out and conquer the world, but she's walking right into Canada's worst unemployment situation since the Great Depression.

An added difficulty is that

she is specially trained to be one of those pariahs of today's society - a teacher. Being a newly graduated teacher today is like being an undertaker in some Utopia where nobody ever dies.

Every occupation has its day in the sun, I guess. Fifteen years ago, it was the turn of the teacher. If your body was warm and you were still breathing, you were likely to be snatched off the streets or out of an office, and propped up in front of a classroom.

With the post-war baby boom over and out of the schools, and the reluctance of so many young people to have children, for whatever reasons, school enrolment has shrunk drastically, and will go on doing so for several years.

The huge educational empires created during the boom years are shrinking, and attrition is fairly savage. Thousands of young teachers are unable to get jobs. Hundreds are losing their jobs because they are redundant.

It's nobody's fault, particularly, just a matter of execrable management by our leaders. Nothing new in that. They're the people who study all the charts, examine all the facts, and invariably come up with the wrong answers.

Day in the sun for the

teachers is over. Morale of those already in the profession is low, for various reasons. Morale of those trying to enter it is depressing.

I reckon doctors got the next day in the sun. For years, along with the dentists, they carried thousands of dollars on their backs, or people who could not or would not pay their medical bills. Then came health insurance, and suddenly young doctors were making a fantastic living, because they were paid for everything they did.

Now they've had their day too. They work incredible hours, often in rotten little offices where they scarcely ever see the light of day. But their expenses have shot up, they pay a whopping income tax, the government is always creating more paperwork, and suddenly it's become a grind.

Who's having his day in the sun in the sick 70's? I'd say the service people: garage mechanics, TV repairmen, plumbers, electricians. It certainly isn't nurses or construction workers.

So be it. But there must be something awfully wrong with a country when thousands of highly educated, highly educated young people simply cannot find employment in what they were

Cont'd. page 12

Report from Queens Park

by MPP John Eakins

Premier Davis and Premier Rene Levesque of Quebec met at Queen's Park this week, and apparently dealt with the question of national unity only incidentally. The Premiers' 13-page communiqué referred to agreements to end several inter-provincial irritants, and they spoke of agreement on "equity and reciprocity" for construction workers from one province holding jobs in the other. Mr. Levesque said that did not mean he will drop a regulation planned to go into effect July 1st which would require extensive Quebec work experience for Ontario labourers seeking jobs in Quebec, and that the two Ministers of Labour are continuing negotiations. He told a press conference that he and the Ontario Premier should meet at least once a year. His own conclusion would be that the two provinces can continue their close association even if Quebec leaves Canada - "Whatever the future may hold, they will continue to be neighbours," he said of Ontario and Quebec.

Legislation has been introduced to increase Ontario's drinking age to 19 from 18, effective September. Amendments to the Liquor Control Act will also tighten penalties for impaired driving convictions. Some other provisions of the Act will be modified, including one that now requires food to be served with liquor on Sunday. Fines to people serving liquor to minors will be substantially increased, and there will be tougher penalties for drivers who face second and third convictions for impaired driving. Tourist lodges will be given more flexibility to permit families with children in areas where alcohol is served. This new legislation is part of a promise made last November by the Premier, following majority support for a Private Member's Bill to raise the legal drinking age to 19, introduced by Liberal Remo Mancini from Essex-South.

Appearing before a Committee of the Legislature, the President of the Ontario Federation of Agriculture urged the Government to launch a formal inquiry into rebates demanded by grocery store chains from food suppliers and "other questionable practices." "The prices farmers receive are public; prices consumers have to pay are public; but what happens in between is unknown, confusing and suspect." Any inquiry would have to hear some evidence behind closed

doors, he said, because food suppliers fear they would be "committing economic hari-kari" if they made public complaints against the chains they must sell to if they are to survive. "The very fact that people refuse to be quoted is a disturbing reflection on the food industry and more reason to investigate what's happening."

The Government has increased its \$776,000 budget for translation services by almost 25 per cent. This move reflects booming business at translation agencies as firms and governments act to print material in both English and French, according to officials of the translation services. The Ontario Government's 20 member translation bureau will be expanded to include eight additional people at an extra cost of \$172,161. Last year, the government farmed out \$332,101 worth of translation work which it was unable to handle, representing 71 per cent of the bureau's workload.

There has been considerable debate in recent weeks about a Toronto tabloid "Strike", which has received a number of grants from the Provincial Government - from the Ontario Arts Council and Wintario Funds. Liberal Leader, Stuart Smith, charged that the Minister of Culture and Recreation gave personal approval. The tabloid is owned by the Kensington Art Association, and has published pictures of bullet-riddled bodies, advocating terrorism and stating that it "supports leg shooting knee capping to accelerate the demise of the old system." The Minister has now backedtracked from earlier statements that the tabloid had no connection with the Art Association, and has said that a cheque for a further grant will be blocked until "a full review" is run on the group. He conceded in the Legislature that "there are similarities in some of the names" of the directors of the association and the tabloid. Four of the seven directors of the association are also listed on the tabloid's editorial board, including the president and vice-president.

The Minister of Natural Resources has said that Ontario's pulp and paper industry could be made environmentally acceptable and competitive in five years, but might need financial help from the Government to do so. To reach this goal, the industry would have to spend \$106.4 million a year for five years on pollution control, compared to \$16.3 million it has spent annually for the past seven years.

Eakins releases tourism task force report

John Eakins, Liberal M.P.P. (Victoria - Haliburton) released today the Report of the Liberal Task Force on Tourism. Following is an excerpt from an "overview" of the concerns expressed by tourism operators throughout the province.

The Task Force has found that the problems of the province's tourism industry can be summarized in three main areas: they are over-regulated, over-taxed and suffer from a perceived negative attitude toward tourists.

Following are highlights of some of the major recommendations:

To establish a mechanism that will provide for a more direct working relationship between the 14 ministries which are involved with the tourism industry.

To re-institute a committee along the lines of the Legis-

lative Committee on Natural Resources and Tourism (whose last meeting was in 1970). This had provided an opportunity for the tourism sector to meet directly with the provincial government to discuss their concerns, and might also help to co-ordinate the efforts of the various ministries involved.

A re-alignment of present ministries to couple Tourism with Culture and Recreation, in order to give tourism the higher profile it needs in the government and to highlight the tourism related aspects of Culture and Recreation.

Reduction of the 10% provincial sales tax on meals over \$6 to the same level of taxation that applies to all other luxury items (normally 7%).

A program to allocate the \$3 million increase in the

Ministry of Industry and Tourism's advertising budget to assist individual operators in their own advertising efforts. It is felt that they (tourist operators) have the best idea where their clients originate and what they are looking for in a vacation.

As a first step towards improving tourism awareness in our educational system, a suggestion for a province-wide contest to choose a souvenir for Ontario and a poster.

That the three levels of government and the private sector proceed to finalize plans for a Metro Convention Centre.

As a short term initiative to get the province's tourism trade rolling again, that a tax credit scheme be implemented for Ontarians vacationing

at home (i.e. perhaps via partial reimbursement for hotel and transportation receipts).

That the province upgrade the information centres at the major ports of entry to the province, so that the tourist may be provided with complete facilities to purchase licences, make reservations, exchange money, and obtain promotional material.

That the province implement a \$5 resident fishing licence, provided that the revenues derived from the licence are allocated to a restocking program for our lakes.

Copies of the Report are available upon request from the office of John Eakins, M.P.P., Room 114, North Wing, or Sandie Giles, Room 126, North Wing, Legislative Building, Queen's Park.

Members of the world champion Whitby Dunlop hockey team, who were in Haliburton last weekend to mark the 20th Anniversary of the team's victory against the Soviet Union, were: front row left: Tom O'Connor; Roy Edwards; Gary Darling; Jack Donlevy; Wally Brabin. Middle Row left: George

Samsen; Ed Redmond; Harry Sinden; Stan Waylett; Frank Bonello; Jack McKenzie; Bob Hassard; Ted O'Connor. Back row left: George Gosselin; Alf Treen; Doug Williams; Wren Blair; Bus Gagnon.

Sinden, Blair among former 'Dunnies'

1958 World Champs celebrate 20th anniversary of victory over U.S.S.R.

By Bill Davis

The 1958 world hockey champions, the Whitby Dunlops, held a twenty year reunion last weekend at the PineStone Golf and Country Club in Haliburton.

Many of hockey's big names were in attendance, including former Whitby captain, Harry Sinden, now general manager of the N.H.L. Boston Bruins.

Previous to 1958 Canada had been a prominent name in International competition and in 1955 had won a gold medal with the Penitton "V" hockey team representing Canada. Again, in 1956, a strong Kitchener team called the Dutchmen had lost to the Soviet Union. In 1957 Canada became embroiled in a political sham over the Hungarian crisis and Canada joined the U.S.A. in refusing to send a team to Europe to compete at the Olympics.

Previous to 1958, Canada was represented by a team chosen at random and it was decided that the team that won the Allan Cup would represent Canada. Sid Smith a former Toronto Maple Leaf, who had retained amateur status, and general manager Wren Blair, put together a team of hockey players whom Scott Young, columnist for the Toronto Sun, said recently could play in the N.H.L. today. This team was named the Whitby Dunlops after sponsorship from Dunlop Rubber, in Whitby.

In the playoffs, the "Dunnies" as they were dubbed by the press, eliminated the Kingston Frontenacs, Belleville MacFarlands, Kitchener-Waterloo Dutchmen and finally the Spokane Jets, who were under the guidance of Bobby Kromm, playing coach of Spokane, thus earning the right to represent Canada in Europe.

If one thinks that teams experience many obstacles today, Harry Sinden and the '58 Whitby Dunnies will tell you that these problems are

not new to Canadian players. After nearly a two week boat ride, this being because Wren Blair had something about flying, according to Harry Sinden, the team finally arrived in Europe to begin a tour that would eventually win Canada a gold medal and put the name "The Dunnies" in most every Canadian vocabulary.

Canada would eventually play 28 games with European teams leading up to the final game between the Dunnies and the Soviet Union. Whitby lost only one of the 28 games, that being a weak team from Great Britain. According to Harry Sinden, Canada was not loved by the then president of the International Ice Hockey Federation, the con-

troversial Bunny Ahearn, and in the game with Great Britain the Canadian team was subjected to some of the worse refereeing Sinden said he has ever seen. After about three weeks of exhibition games the world championships finally began, and Canada proved early that they were sent to do a job and retain the world title as they rolled by team U.S.A. 9-2, Sweden 10-3, Poland 14-0 and Czechs 4-1, setting the stage for the big game with the U.S.S.R.

It was early morning by our time when the Whitby Dunnies took to the ice in Oslo, Norway, as a small contingent of Canadian Armed Forces personnel, stationed in Norway, cheered the Can-

adian team on. When the final buzzer sounded, Canada, represented by the Dunnies from Whitby, had proven

supremacy as they dumped the U.S.S.R. 4-2. The traditional anthem of the winning

Cont'd. page 7

Harry Sinden, general manager of the Boston Bruins, was one of the former Whitby Dunlops who came to Haliburton last weekend to mark the 20th Anniversary of the Dunlops' world championship victory against a team from the U.S.S.R.

Minden teams to form schedules

The Minden Recreation Committee wants Minden area baseball teams to form an association that would be responsible for scheduling use of the ball diamond for the various teams involved.

At their sixth meeting last Wednesday, the committee met with Paul Sisson, a representative of the Men's ball team, to discuss the scheduling, and upkeep of the diamond.

Sisson told the committee that team members currently drag the field to keep it in condition, and draw lines. He also noted that the team owns the bases. Sisson said team

members would be willing to replace any burned out bulbs in the lighting system, provided the committee supplied the bulbs.

The committee passed a resolution saying that it appreciates the co-operation offered by the teams toward the upkeep of the diamond.

In other business, the committee decided that the Minden Figure Skating Club and Minden Minor Hockey will be granted \$4 per hour for ice rental for the coming season. In making the grant, however the committee said the grants would not be considered in

Local boys compete well

At the Eastern Ontario Regional Track & Field meet, in Ottawa, on Saturday, May 27, Bart Barnes and Larry Stinson competed for the Haliburton Highland Secondary School team. Bart Barnes qualified for the Ontario school finals to be held at Queen's University in Kingston, on June 2nd and 3rd, by winning the Senior Boys Division. Bart has been undefeated this year in five meets and will be competing with the best in the province this weekend. Larry Stinson made the finals of the Senior Boys 110 metre hurdles, at Ottawa, but failed to qualify for the meet at Kingston. Congratulations to both boys on a very successful season and good luck to Bart in the finals.

Coboconk spring festival - a time of craft and song

Maggie Trevett, of Toronto, was on hand at the Festival to show her special brand of making pots. Maggie has sold many of her works around Southern Ontario and has participated in many festivals, such as the one which is being held in Coboconk.

Tracy Little, Debbie Shaw, and Shirley Balson look on as Anne Robertson prepares a copper necklace for display in the crafts tent at the Coboconk Spring Festival.

Sylvia Tyson, John Eakins among guests on Monday

Coboconk was the scene of a number of activities in the Victoria County Spring Festival of the Arts this week, and joining in on the festivities were folksinger Sylvia Tyson and John Eakins, MPP for Victoria-Haliburton.

Eakins was on hand to open the Coboconk portion of the festival. In a short speech to a large crowd on hand Monday afternoon, Eakins noted that the continued success of the type of arts festival that has been going on for the past week all over Victoria County was important, and it should

continue, he said.

Sylvia Tyson entertained a crowd of about 100 people with her latest songs, and even decided to sing a tune written by the Islington Youth Choir, which performed before she appeared on stage.

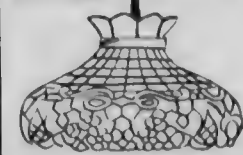

"It was a lot of fun, even though I did get the chorus mixed up," she said. Tyson will be moving on to Fencelon Falls on Thursday, June 4 and will continue her country tour right up until June 3 when she will perform for the Manvers Township festival. The tour

is part of a larger cross-country tour which she is doing for the CBC.

The Coboconk festival committee held a Lions Dance at the Lion's Hall on Saturday, May 27. An Arts and Crafts demonstration was also held at the hall on May 29 along with the Islington Youth Choir and a puppet show in the morning.

Several exhibits such as loom displays, carving and weaving booths, and cake-dressing exhibitions were also featured.

Folksinger Sylvia Tyson entertains a crowd of about 100, present at the Coboconk Spring Festival. Tyson will be performing throughout Victoria County as part of the festivities this week.

Softball games

Softball games for the season will be played on the following days for all pee-wee and atom teams:

Minden - Thursdays at 7:00 p.m.
Stanhope - Tuesday at 7:00 p.m.
West Guilford - Tuesday and Wednesdays at 7:00 p.m.

Haliburton - Wednesdays at 6:30 p.m. and 8:00 p.m. (double header)
Gooderham - Sunday at 6:00 p.m.

On Wednesday, May 31, Minden will be at Haliburton. Thursday, June 1, Haliburton will be at Minden. Sunday, June 4, West Guilford will be at Gooderham.

1958 World champs celebrate victory

from page 6

country was played and the boys from Whitby stood tall as O'Canada resounded from the P.A. system in the Oslo arena.

Last weekend, at Pine-Stone, these gentlemen gathered to celebrate the 20th reunion. It was hard for one to believe that these distinguished men were at one time moulded into one of the finest Senior A hockey teams in Canada. Age has overtaken a few and grey hair was evident, but the love for the game was not diminished.

To most of these people, winning with Dunnies has had a great bearing on their lives and careers. Of course, as we all know, some have never left their first love, the game of hockey. Take Sinden for example, general manager of the Boston Bruins, Stan Waylett who just retired as trainer of the North Stars, Gary Darling, chief scout of the Bruins, Wren Blair who still owns the Saginaw Gears, Ted O'Connor, scout of the North Stars, Frank Bonello of the Marlies, Roy, Edwards,

who in the series in Norway played outstanding goal, and many more. Unfortunately, time brings death and three members of the famous Dunnies have passed on, namely J.P. Lamirand, Gordie Myles and a personal friend of the writer, Jack Armstrong. The goal scorers in the big game

against the U.S.S.R. were evident last weekend, Buz Gagnon, Connie Brodin and, of course, the big gun of the Dunnies, Bobby Attersley, who fired two big ones in the final game.

These men played in a golf tourney at Pine-Stone and

Haliburton Highlights

The 1978 Haliburton Swimming Classes require one assistant with qualifications - Leaders or Bronze Award. Classes will be for eight weeks, July to August. If you are interested please call Mrs. Murray Austin at 457-1867.

We are always hearing complaints that the main street and some of the side streets in the village are not swept enough. Well, we are pleased to report that the job was done one day last week.

Our congratulations go out to Rick Bailey, son of Mr. & Mrs. Merrill Bailey, of Haliburton, who graduated from Sir Sandford Fleming College in Peterborough, at the Eleventh Convocation held on May 13th.

Mark S. Vasey Insurance Agency (1976) Ltd. is moving to a new location in Haliburton. You will now find them in Brohm and Leighton's office, next to the IGA on Highland Street. They will be in their new location on June 1st.

We have been informed that it won't be too much longer before work will commence on the new park on Head Lake at Haliburton. The present Rotary Beach area will also be in for a real face lifting.

At time of writing this column, Haliburton is suffering through a real warm spell. Oh well, it was a long cold winter so we can stand more of this kind of weather.

Well, the National Hockey League season has finally drawn to a close. It seems like a very long season and it seems to be getting longer every year. We must admit one thing and that is that the playoffs this year were really thrilling and it all goes to show that we can really see hockey as it should be played when the chips are down.

Mr. & Mrs. Jim Henry, of Orangeville, were recent visitors to their cottage on Loon Lake. Jim has been a friend of mine for a long time and it was a pleasure to see him and his wife Gerry back in Haliburton for a visit.

If we can just get good weather it looks to us as if we can be in for one of the busiest summers we have had here for some time. They say that money is tight. Maybe it is, but people will still take time out to have a vacation.

We had a power failure in Haliburton last Wednesday evening around midnight, but the boys from Ontario Hydro had the situation remedied in the matter of a few minutes.

We have been hearing a lot lately about Welfare and how it is being abused. All municipalities in Haliburton County are screaming about the fact that welfare costs seem to be climbing higher and higher. It seems to us that the people who are drawing this welfare, in most cases should be made to go out and work for this money. The manner in which welfare and Unemployment Insurance is being banded out makes us realize that slowly but surely we are being turned into a welfare state. For many people in Haliburton County work is just not available, which is a crying shame, but for others, collecting welfare and Unemployment Insurance is just an easy way out.

In this country of countless lakes and rivers, our summer season naturally finds thousands of vacationers enjoying the pleasures of water sport and aquatic recreation. For those on holiday at the cottage, beach or resort, the pleasure boat can become as important as the family car. Indeed, Canadians each year make use of approximately one million leisure crafts from canoes and sailboats to large yachts.

This is the story of a young man named Elmo who had taken the wrong road simply because of the absence of a parent. Unfortunately for this lad his parents were not getting along together and eventually separated. The lad, with his two younger sisters went to live with their mother and were moved to a new district. This meant transferring to a new school. The mother found a job at a factory and for a short time things seemed to run smoothly. Then this lad got in with the wrong company. Very soon he became a drop out from school and one of the gang.

Arrested on a minor charge he spent the

weekend in jail. The Salvation Army Correctional Officer was making his regular rounds. Seeing this young man and after talking with him realized that he was capable of better things and took an interest in him. The Officer spoke to the Magistrate who agreed to release him on condition he would report to the Army's hostel where he attended the chapel services. Soon he found a whole new way of life.

After working at the Army's industrial centre for a time he found a job at a factory where he became well established. Needless to say both parents were overjoyed and grateful to The Army.

Think how much this young man would have cost the taxpayer. This should merit your consideration to contribute to the Red Shield Campaign. Give out of love to others.

The County Fair Beef Barbecue and Dance will have an added feature this year. An excellent film of horse drawing events showing scenes from local fairs will be shown and it's a documentary from the National Film Board. The Fair Board had to book this popular film months in advance and it should be well worth seeing. This film will give everyone who attends the opportunity to see just what other communities are doing when it comes to Fall Fairs.

The evening will begin with a delicious roast beef meal and we urge you to watch the horseradish...it's HOT! The film will be shown at 8:30 p.m. and the dance will get under way at 9:30 p.m. with music being supplied by the Misty River Ramblers.

All of the action will take place at the Minden Community Centre on the ice surface, so come for the entire evening.

The admission price is \$12.00 per couple and the film and dance only is \$6.00 per couple.

All proceeds will be going toward the Fair and everyone is looking for a big turnout. Don't forget the date - it's Saturday evening, June 3.

Team schedules

from page 6

future until financial statements are presented by both groups, and that the grants would only be paid if the financial statements reflected an undesirable deficit. The committee noted that the clubs must raise their own funds, and that ice rental will be charged at the full \$18 per hour rate.

Representatives of the clubs will be invited to attend the next general meeting of the recreation committee to discuss the matter further.

In an attempt to clarify the committee's position on the control of parkland, a resolution was passed requesting the municipal council to further define its authority in relation to the parks as soon as possible.

Brian Sisson was authorized to purchase four badminton nets.

Champs

from page 7

reminded about old times and, of course, that big day in Oslo, Norway 20 years ago in which they not only made every Canadian proud, but created a turning point in each and every one of their lives. As the great Vince Lombardi once said, "A man's greatest hour is when he lies on the field exhausted but victorious, knowing he gave every inch of his body." How true that must have been twenty years ago when the Dunnies won in Norway.

Delmar Neimann of Whitby caught this 16 pound lake trout on Drag Lake during the May 24th weekend. Neimann was out fishing with his father. He said it took him five minutes to land it.

Cancer society raises \$3,023

The local campaign committee of the Canadian Cancer Society says this year's campaign has raised almost \$500 more than was raised in the campaign last year. Campaign Manager, Maxine Curry, says a total of \$3,023.00 was raised by volunteer canvassers.

Contributions from area villages and hamlets were as follows: Donald \$68; Eagle Lake \$185.50; Gooderham \$215; Haliburton Lake \$87; Haliburton Village \$1,860; Harcourt \$219; Lochlin \$40; Tory Hill \$80.50; West Guilford \$120; and Wilberforce \$148.

The local committee says it wishes to express a sincere thank you to all who participated in the door-to-door canvass.

Anyone wishing to give "In Memoriam" gifts to the Cancer Society is asked to contact Mrs. Elwood Austin, of Haliburton.

Patients needing assistance from the Cancer Society should telephone 457-1201.

Patients needing assistance from the Cancer Society should telephone 457-1201.

Haliburton Ladies Softball

Election meeting

There will be an election meeting for the Haliburton County Ladies Softball League on Thursday, June 1, at the legion auditorium. The purpose of the meeting will be to elect officers,

discuss Wintario grants, newspaper coverage, and to complete banquet plans.

All interested persons, players, umpires, coaches and onlookers are urged to attend.

News from Extendicare

by Dr. O.W. Anderson

In anticipation of the Thursday potluck dinner that is coming up when we meet with the Senior Citizens Club of Haliburton, in the Dysart Community Centre, some ladies baked a two foot by a foot and a half cake. For some reason no resident ladies helped in this venture, but it was left to Mrs. Bonnie Bonsfield and Mrs. Darlene Darby of the kitchen staff and was completed sometime Monday, Tuesday, or Wednesday. We much anticipate helping to eat it on Thursday.

It is possible we went out on a limb with our plants and flowers, because since our present willing manpower seems to be so severely limited, a full program of flower beautification of the whole Extendicare landscape will not be possible. There are plenty of plants propagated so it is simply a matter of getting them set in the ground, and then afterward see to their watering. There is now, and no doubt for the remainder of the summer will be, plenty of water, so it is only a question of someone willing to play a hose on the flower beds so we can be sure they will not come to an early end.

Other institutions can maintain attractive beds of flowers, surely out of sixty residents we can find one or two or three sufficiently enthused that they can set out plants already propagated, and then follow up in their watering for the rest of the flower season. We had a very lovely flower display last year, but it does seem bleak for this. Because of the nature of our inherent limitation, it is somewhat indelicate for one resident to ask another resident to do something, and yet we feel for some of them to do what is shown above to be desirable, would really be good for the morale. If the program as suggested, is not carried out, hundreds of potentially beautiful plants

will eventually be simply thrown out. This then can be called "a word to the wise."

It may be asked why the present effort of transplanting and watering cannot be extended through the summer; the answer is that it is already committed to arranging for a limited floral display, sufficient to keep us busy enough.

Thursday, as planned, we were taken with date cake to meet with the Haliburton Senior Citizens in the Dysart Community Centre, to join in a potluck dinner. So many times we have written about these dinners, it seems we have forgotten an adequate "thank you kind folks". So there it is. A very fine dinner it was. Grace was said by Capt. Doug Barry at the request of the president, Mr. Emil Neimann. There were an assortment of delicious meats, potato salads, cole slaw and what not in the main course, various kinds of pies, rhubarb in particular, some puddings, and, of course, date cake. It was announced that there were 100 members on hand, and many birthdays were celebrated. Our transportation to and fro was provided by Mrs. Pat Burk, Mrs. Lorna Hogg and Mrs. Joan Hutchings, in their private cars.

A very delightful surprise was given to us when the Senior Elementary School brass band moved their music period to Extendicare's front lawn to give us quite a concert under the able leadership of Mr. Don Wright. Mr. Edward Whiteway, a teacher-learner of band routine, came to help. The tuba players were Peter Connelly and Duff Mitchell. This is noted to try to show that we would like to list everyone. They gave out a very melodious succession of very nice band music. Haliburton can be proud of them. This is the first time this band has favoured us this way.

The senior band of Haliburton Highlands Secondary School put on their annual spring concert at the school Thursday. Also featured in the program were the intermediate band and the stage band.

L.O.B.A. celebrates 50th

The Haliburton L.O.B.A. Northern Star Lodge No. 828 held a special meeting on Wednesday, May 24, to celebrate their 50th Anniversary.

Right Worshipful Sister June Antoine, Grand Mistress of Ontario East, and Right Worshipful Sister Woodbeck, Grand Treasurer of Ontario East, were present to convey congratulations and best wishes to all members of the local lodge and also take part in the meeting.

The Right Worshipful Sisters were presented with corsages and gifts by Worthy Mistress, Sister Irene Higgins, in appreciation of their attending this special meeting.

Other guests were several L.O.B.A.'s from Cameron, Burnt River, Kinmount and Minden. After the meeting the three Barnhart Sisters entertained with music and song. Following this a buffet was served.

Our Friday morning devotional period did not take place. Our scheduled leader simply did not show, but this did not cause us any inconvenience in any way. Our sincere thanks go to all the denominations that have so kindly furnished us a leader when their respective turn came to do so, in the past years.

Mrs. Lila Simmons is with us again, after having explored the Yukon. That region of Canada has a magnificent grandeur that no other country has. Mrs. Simmons was quite enthusiastic about the thrill of flying.

We plan to start committing our many plants to the outside June 1st. Any sooner is taking unnecessary risk of frost in this area. There are many plants nearly ready to bloom, petunias, allysum, pansies, geraniums, marigolds, dahlias, balsams and statice. We believe we will have a nice display.

Our gratitude goes to the municipality of Dysart et al for giving us such a nice walkway or roadway, whichever, on Park St., or should it be changed to avenue now?

Gems of Truth

Continued from last week:

That prophecies were made, and writings given, over a period of thousands of years, yet accurately fulfilled and unison maintained, is clearly not the work of man. The Holy Spirit must have the credit.

Such then, is also the testimony concerning His work in the New Testament. Just as the Spirit of God had a part in the creation of the world, so He has participated in all its events down to our present day. Especially, is this true in relation to the Lord Jesus Christ. From the day of conception by Mary, as announced by Gabriel, to the ascension of Jesus to Heaven, the work of the Holy Spirit was prominent in the life of

Jesus. Was not the ministry of our Lord opened under the direction of this Third Person of the Trinity?

The Bible says, "He was led into the wilderness by the Holy Spirit, to be tempted of the Devil" (Math. 4:1). All through his three years of service to mankind, Jesus spoke and worked by the power of the Holy Spirit. Finally, when this ministry was over, Jesus is said to have offered Himself to God, by the might of the third person of the Trinity. Likewise, He was raised from the dead by that same source.

During the earthly ministry of our Lord Jesus, constant reference was made to His disciples about the unfolding truth concerning the Holy Spirit. First, He taught them that He might be received through prayer to the Father

(Luke 11:13). Again, near the close of His ministry, Jesus promised that He would pray the Father, and the Comforter would be sent to abide with them (Jno. 14:16, 17). After His resurrection, He came to the disciples in the Upper Room and breathed on them saying, "Receive ye the Holy Ghost" (20:22). Immediately before His ascension to the Father, He commanded the disciples to wait, until the Holy Spirit should come and empower them for their life work (Luke 24:49, Acts 1:8).

On his advent into this world, on the Day of Pentecost, the whole body of believers became the dwelling place of the Spirit. He indwelt them, individually and collectively. Thus, even as God the Father is the Omnipresent One, dwelling in Heaven, and the Lord

Jesus as Omnipresent, yet being at the right hand of the Father, so the Holy Spirit is Omnipresent and dwelling on earth. It is in this sense that He came on the Day of Pentecost. His actual abiding place was changed from Heaven to earth.

The Book of the Acts of the Apostles, clearly brings before us this Heavenly panorama. Jesus had said that when the Spirit comes, He would convict the world of sin (Jno. 16:18). This is precisely what happened. When Peter started preaching to the multitude gathered at Jerusalem, on the Day of Pentecost, a mighty conviction of sin gripped his listeners. As his audience was all Jewish, Peter told them to repent of the wicked deed they had committed. This same cruci

Norland Notebook

by Barbara Maunder

For the past several years, in early May, the Coboconk charge of the United Church has held a Walkathon to assist the Mission and Service Fund of the Church. This money is forwarded to Toronto and is used by the United Church of Canada for World Development work. On Saturday, May 13, at 9:30 a.m., a large group of young people and adults walked ten miles on the Indian Point Road, Coboconk. There were check points along the way, with oranges and cold drinks available to any who wished them, and after the completion of the Walkathon, hot dogs and beverages were served by the church ladies, to all of the walkers. Last year \$2,430.00 was realized from a Walkathon and it is to be hoped that this year will be just as successful. To all who sponsored a walker, many thanks for helping with this worthy cause.

Last Saturday, May 20, 18 year old Beverley Sims, of

Mississauga, went for a walk near the trailer owned by her parents at Head Lake. When she hadn't returned by dark, her family notified the Coboconk O.P.P. and an intensive search of the area was conducted all of Sunday and most of Monday when Miss Sims was picked up on Highway 503 about 7 miles from her parents' trailer. After telling the police that she had been lost in the bush since Saturday, she was taken to Ross Memorial Hospital, Lindsay, but later released. Her parents, Neil and Kathleen Sims, have asked me to express their heartfelt thanks to all of the men and ladies who helped and assisted in the search for their daughter. Your concerns and efforts were most appreciated by them.

If you like pancakes and syrup, you won't want to miss the luncheon, sponsored by the Coboconk Temple Corporation in the Norland United Church Hall on Saturday,

June 3, starting at 1:00 p.m. The group will be serving pancakes, maple syrup, sausages and a beverage for \$1.95 per person.

Remember the Laxton, Digby, Longford council meeting has been changed to Monday, June 12.

The Norland Firefighter's Association hockey pool is finished for this year and the final winners were Sue Magee on May 13, Ida Pardy May 16, Debbie Magee on May 18, and Karen Kenny on May 21. There were two extra hockey pools on May 16 and 18. The fireworks display was well attended and from the proceeds of donations at the park, on May 21, \$100.00 was presented to the Norland Athletic Club. All in all, a very successful venture.

On Thursday evening, May 25, as a prelude to the Victoria County Spring Festival of the Arts, the students of grades 7 and 8, under the leadership of Mr. Hugh Armstrong, and with pianist Mrs. Townley, presented the operetta "Pink Bread." Over 120 people filled the Burnt River Orange Hall to view this musical play so aptly performed by the talented group of young people. Earlier in the evening, many visited the school classrooms to watch the students demonstrating crocheting, candle making, Cont'd. page 11

District News

Haliburton's landmark train, the Highlander, is getting a facelift for the summer. Thanks to Canada Works and the Haliburton Rotary Club, the old train will again look as good as new. After sanding the old paint and rust, Randy Rolston brushes on the first coat.

Coboconk News

by Sheila Lake

This beautiful hot weather is a real joy after a long, cold winter and a cold spring. Though most farmers are behind in their seeding and low areas are still too wet for planting, these past few hot days should remedy that problem. Of course, mosquitoes and black flies are very prevalent and it's impossible to sit outdoors these lovely evenings, but even so, this is a beautiful time of year and those pesky insects will soon be fewer.

For the gardeners, there is a real good choice of pretty flowers and lots of vegetables ready to put in the ground. The local stores have good healthy plants also. Drop in at the Hansen's and the Summerfeldt's greenhouses, just north of town on Highway 35. They have a good choice and at reasonable prices.

The Senior Citizens continue to be a very active group. With a dance in the Lion's Hall tonight, an interdenominational church service in the hall tomorrow, and a craft demonstration and exhibit, the Islington Youth Choir and Sylvia Tyson, all on Monday, as well as a puppet show, it's off to a busy week.

I think everyone in town had relatives or friends to

visit last weekend. It was a lovely holiday weekend and I saw many familiar faces - some we haven't seen since last fall. Parking down street becomes a greater problem each year. Really don't know what could help the problem and I'm sure the business folk wish they had an answer as folks driving through town would no doubt stop if they could find a parking place.

The Old Mill Mini-Mall has had a number of changes and the enlarged outdoor dining area, along with the newly opened luncheon, is very attractive. You can eat in the great outdoors and watch the boats, swimmers, ducks and activities at the dam. So choose your lunch and enjoy a real treat in the great outdoors.

No doubt you read the account of the bear killing the three young men at Algonquin Park last week. Did you notice that Lorne O'Brien destroyed the bear? Lorne is with the Natural Resources and is the son of the late Mr. & Mrs. Percy O'Brien and was raised on the Buller Road, next to the Russell Brohm farm.

Also, in Friday's Star of May 19, a story of tragedy

unfolded. On page 3 of the first section was the sad story of Shelley Elizabeth Hogan who was badly beaten and died at hospital. Shelley was the daughter of Mrs. Hogan and the late George Hogan. Mr. Hogan was the owner of Hogan Pontiac-Buick, a very large Toronto car dealership, a few years ago, and the family owned a cottage on Indian Point here at Coboconk.

The old church camp grounds and often called "the ball grounds", since years ago, baseball was played there, has been sold to Cedarhurst Quarries. Perhaps it is wishful thinking, but could there be some industrial activity in the future? Let's hope it will create a few jobs for local residents who would enjoy employment here at home.

If you are a Whipper Billy Watson fan, you may not know that he is ill in York County Hospital, Newmarket. Mr. Watson is a great champion of crippled children and if you have a disabled child, maybe you would like to cheer up this great man who is concerned with the crippled youngsters.

Cont'd. page 12

Maple Lake News

Intended for Last Week:

A happy social event took place May 13 at Hart Lodge for the occasion of the Tuesday Night Combines Bowling League Banquet. A group of 47 gathered for a social half hour before dinner was served.

The roast beef dinner, served by the lodge attendants, was followed by the giving out of awards to all bowlers on all six teams, according to the position in which the team finished for the year, as follows: 1st place, Art Beatty's team; 2nd place, Lil Gorvett's team; 3rd place, Pearl Foster's team; 4th place, Jack Yateman's team; 5th place, Eva Piper's team; 6th place, Ada Gibb's team.

Individual awards for high average: Ladies - Pearl Foster 211; Men - Hoary Baker 215. High triple: Ladies - Eva Piper 795; Men - Jack Yateman 844.

High single: Ladies - Marlene Bunn 336; Men - Ian Colman 369. Team winning total pins in the playoffs was captained by Jack Yateman.

Officers for the league for 1978/79 season are: President, Bruce Medcalf Jr.; Vice President, Ken Beatty; Secretary, Fern Donnelly (Combines); Secretary, Susan Frances (Bowling Assoc.); Treasurer, Gail Medcalf; Cards & Flowers, Pearl Foster.

Several families from the Carnarvon area had good reason to attend the graduation exercises at the Sir Sandford Fleming College in Lindsay and Peterborough recently. Mr. & Mrs. Richard Kinsman attended the Peterborough College on Saturday, May 13, for the graduation of their son, Richard, from a three year Civil Engineering course. Rick, fortunately, has gained employment in the Mississauga area.

Mr. & Mrs. Jack Barnhart also attended the graduation exercises in Peterborough for their daughter, Lynn, from training as an Executive Secretary. Lynn was lucky to win a trip to France. Her parents have had a phone call from her, telling of her safe arrival. Lynn plans to continue her studies at the college and will be taking a different

course, perhaps in Business Administration.

Another Carnarvon graduate was Rick Bailey, son of the Bailey's of Carnarvon Building Supplies. Rick's three year course was in Business Administration.

Mr. & Mrs. Maurice Windsor attended the Lindsay branch of the Sir Sandford Fleming College for the graduation of their grandson, Dwayne Windsor, who has completed his training as a Geotechnical Technologist. Dwayne will be working with the St. Joseph's Exploration Company with headquarters in Toronto. His work will give him an opportunity to travel.

Mr. & Mrs. Richard Kinsman attended the Fire Chief's Conference in Ottawa, May 14-17. While attending, our Fire Chief, Richard, gained much worthwhile information which he feels can be put to good use in the Stanhope area.

Mr. & Mrs. Ross Harrison, and Mrs. Bert Johnson made a trip to Toronto to visit their brother, Cecil Harrison, who is still in hospital after suffering from a severe stroke in April. Get well wishes are extended from the home community.

Mr. & Mrs. George Cowan,

of Brampton, and Mr. & Mrs. Garnet Coulter, of Campbell River, B.C., are visiting in the area. While here they were taking part in the James Cowan Family Reunion which was held in the Stanhope Firehall Building, Saturday, May 20. The good wishes of the community are extended to all members of the family for this special occasion.

Mrs. D.B. Morgan (Esther Gibbs) has returned to her home in Calgary, after a 10 day visit with the various members of the Gibbs family, and with friends, and other relatives.

Bob's Off Again
Bob Davis, the well known Northern Tripper, has joined a select quartette of experienced canoeists for a two week paddle down the Missinaibi River from Peterborough to James Bay. The Missinaibi River is located 724 kilometers north of Toronto, and 338 kilometers northwest of Sudbury. Bob's foursome includes two professors from the University of Toronto, and a lawyer from Chicago. They left by van May 12 for North Bay and from there will continue by C.N.R. to Peterborough where they will embark on a very exciting white water

cake icing, sewing, macrame, painting, etc. at their open house display.

Victor Peel, of Hilton Point Road area had some excitement around 8:00 p.m. Wednesday evening, May 24, when he spotted a large black bear approximately 30 feet from his house. Mr. Peel has beehives on his property and it is thought that these are what attracted the animal to his farm. He decided to take his gun and follow the bear and hopefully shoot it before it did any harm to his hives. The bear, instead of running from Mr. Peel, turned and started toward him, stopping behind a tree about 20 feet away. He fired 4 shots at the bear before hitting and wounding him and then the bear ran off. Mr. Peel called the office of the Ministry of Natural Resources, in Minden, the next day, and expected them to be in touch and check out the whereabouts of the wounded animal.

The Ladies of the Women's Institute extend an invitation to all to attend a special meeting on ways to conserve energy at the W.I. Hall on Monday, June 5, at 8:30 p.m. Eneraction Committee Conservation Centre is sending a

speaker who will address the group on energy conservation. This is a timely and important subject, so plan to attend. Refreshments will be served.

As of May 27, the Village Wool and Craft Shop will be open from 10:00 a.m. to 6:00 p.m., 7 days a week except Friday, when it will remain open until 9:00 p.m.

Mrs. Anna Verkerk has been successful in passing her real estate exam and is now qualified to sell real estate. She will now, no doubt, be lending a helping hand to her appraiser husband, Arie Verkerk.

The township pumper fire truck has just had a new 350 gallon water tank installed. The old tank was badly rusted out and leaking enough that there would not have been sufficient water to be of much use at a fire so a new one was made to order and installed in Lindsay. This new tank should certainly outlast the rest of the life of our 1954 fire truck.

I was sorry to learn from Russ Mills that his wife, Milly, has been in a Toronto hospital recently for eye surgery. Happy, though, that Milly is better and will be returning home this weekend.

Trent - Severn News

With no rain from Saturday, May 20, to Friday, May 26, and high temperatures, water levels and flows are receding quite nicely on the whole system. Navigation will be opening on May 27 from Hastings to Port Severn. Only the lower Trent River now has flows too high for navigation. It should be operational by May 29.

Reservoir storage is being redistributed from upper lakes to lower lakes (e.g. Halls), but the storage remains at an overall percentage of 99.2 per cent on May 25. Gull River flow was still 1240 cfs today while the Burnt River flow has been cut by more than 2000 cfs to 640 cfs today, 2770 a week ago.

Otonabee River flow after today's reduction will be in the order of 3500 cfs, a cut of about 6500 cfs from a week ago. The Kawartha Lakes are near or a little above their maximum navigation levels generally.

As most cottagers and boaters know, the Waterway in most places has been closed all of the past week (May 22) due to high flows. Many people wonder why it is necessary to close or in this case not open because of these conditions.

During these types of conditions, the narrow channels near the locks become particularly dangerous with the

swift current. Also, the navigation buoys become submerged as the higher flows and levels pull them under the surface. This poses a hazard because they can't be seen to navigate by and they also become an underwater obstacle. As experienced boaters know, these conditions are just too hazardous for navigation.

We bring people home

Bishop Lewis Garnsworthy officiated at a special confirmation service held at St. Georges Anglican Church last Sunday. Confirmed were Terry Lynn Elstone, Sheila Finlay, David Elstone, Darlene Freeman, Bishop Lewis Garnsworthy, who per-

formed the service, Brian and Barbara Hunter, The Reverend Trevor Denny, Minister of St. Georges, and Myles Maughan. Absent when the photo was taken were Craig Brown and Warren Redgrave.

Stanhope Notes

by Alex F. Stevenson

The recent announcement by Reeve Sinc Nesbitt that he would not run in the next municipal election for any position on Stanhope Township council, has to be a cause for concern among thinking people of this township.

No one could have served the township better than "Sinc" Nesbitt during the years he has been on council, not only at the local level but also at county level and in dealings with senior governments.

The writer has had differences with "Sinc", usually over matters of viewpoint, but there has never been any doubt about his deep sense of obligation to the township nor of his untiring efforts on behalf of the municipality in areas involving other levels of government.

We would like to think that there is some way of inducing the reeve to change his mind on this matter and this thought is shared by numerous other concerned rate-payers.

Since this is not too likely a development, at least at this moment, residents of Stanhope will have some serious thinking to do between now

and the November municipal elections.

Some contentious issues will probably have to be met by the next council and the worst thing that could happen to Stanhope would be to have the future council loaded with inexperienced personnel.

It is for this reason that it would be a matter of good judgement to encourage those with some experience to run again in the November elections.

The Stanhope Recreation Committee is planning a walk-a-thon for July 15 to raise funds for its projects.

These include a tennis court, the summer swimming program, a children's program during the month of August, and also an improved facility for outdoor skating.

Applications for Culture and Recreation grants are being prepared and the public participation in the form of cash support, voluntary labour, use of equipment, donations of material or other such assistance will be important to the success of the request for grants. In any event, the Committee intends to keep any demands on the municipality to a minimum.

Chatting with Irene

I am sitting here at the picnic table in the shade while getting the column ready. The breeze is lovely and the perfume from the lilac bush helps me forget the heat. I'm not complaining for the heat is great, and hope it lasts until October, with a little rain now and again. At least we can get our gardens in, and I have some of mine in, hopefully the rest will be in by the time you read this.

Made a mistake last week in the piece about the barbecue: the social hour is from 6 p.m., then the supper from 7-8:30 p.m.; then the film and dance follows. This is all at the arena in aid of the County Fair, and they told me quote "the horse" radish would not be so hot."

The home of Mr. & Mrs. Floyd Miller was a busy place last Sunday when there was a family get-together before Mr. & Mrs. Garnet Coulter left on their return to their home in B.C. Relatives were present from Lindsay, Haliburton, Utterson, Kirkfield

Coboconk

from page 11
Sincere sympathy to the relatives of Victor Sedgewick who passed away last week. Victor had been living at Kinmount for some time and lived in Coboconk some years ago. He was the son of Mr. & Mrs. E. Sedgewick of Gelert, and his young son, living with his grandmother here, mourns his passing.

Don't throw out those old curtain rods. If you fasten them to the back of a closet door, they are good shoe racks.

Pizza season is here! When making pizza, often it is hard to remove from the pan. Gently lift the pizza with a spatula, use your kitchen shears and cut in desired pieces.

How about a Snowball Salad for a light lunch: 1 - 8 oz. pkg. cream cheese; 1/4 cup finely chopped black walnuts; 10 canned pear halves; 2/3 cup shredded coconut; lettuce, mayonnaise thinned with a little half and half or cream. Mix most of the cream cheese with the walnuts and form into balls. Press two pear halves together over each cheese and nut ball. Spread outside of pears with remainder of cheese and roll in coconut. Serve on a bed of lettuce with mayonnaise at the side of each pear. May your lawn keep green and the black flies all go away.

and other parts of this province. Everyone had a real good visit.

Don't forget the Family Fun Nite at the curling rink this Friday evening from 7 to 9 P.M. Fun for all the family. Remember last year how much fun you had; it will be the same this year, so be sure and come. The proceeds go to the new Library Fund.

Muriel, Chris and Scott Ewing; and Len Carswell, visited with the Milt Sears over this past weekend.

Next Monday evening is the last spring meeting of the U.C.W. at the Church Hall, as well as the business there will be a film which was made in Haliburton County, so it is hoped there will be a good turnout. That is on June 5th at 8 p.m.

Next Tuesday evening, the 6th of June, is the regular meeting of the Minden & District Horticultural Society at the Minden Council Chambers, at 7:30 p.m. It is hoped that the members will all turn out; and please do not forget to bring the rookies you said you would make for the convention. As well as having a suggestion period, there will be two short films called "Ruth Stouts No Work Garden" and pictures of Kew Gardens. Everyone is welcome to attend these meetings, so come along.

Mary Cox, Thelma Ewing, Freda Hulbig, Alice Todd and Jeanne Sears attended the Womens Institute District Annual at Fenelon Falls last Thursday and all enjoyed the days programme.

Across the Sea of Sunny Hopes with loads of wishes true; my little ship of Kindly Thoughts goes on its way to you - and it will sail right on and on, allowing no delays, until it brings you to the Port of warm and happy days.

The Womens Institute sponsors a Public School Exhibit each year and the judging was done at the library of the Archie Stouffer Public School over the weekend. The judges were Anne Dawson, Isobel Harrison, Renie Burns, and Jeanne Sears. The prize winning entries will be on display at the County Fair, also the winners receive prizes from the W.I. The entries were in four groups and the winners of Group 1 were: 1st - Greg Stamp; 2nd - Michael Westell; 3rd - Abby Burk. Group 2 - 1st - Shelley Barnes; 2nd - Laura Cross; 3rd - Melonie Legge. Group 3 - 1st - Tom George; 2nd - Jack Prentice; 3rd - Kevin Mantle. Group 4 - 1st - Teresa Trepanier; 2nd - Shelley Bull; 3rd - Susan Wingate.

The Agricultural Society held a meeting last Wednesday evening and I'm sure it was very disappointing to the president and executive that so few members turned out. You all realize that the County Fair is only about 2 1/2 months away and you are all needed to help make the final decisions. It should not be left for a few, as it is your Fair, as much as anyone elses, and you are needed, so please remember that and when the next meeting is called, do try and be there.

I must not forget the birthdays for June at Hyland Crest. They are as follows: June 4, Isabella Shay; June 14, Robert Kernohan; June 16, Eleanor Law; June 27, Agnes Lansfield and Ada Lewis. Everyone likes to receive cards and I know you won't forget.

After this week I will have to give you the County Fair Needlecraft & Domestic Science in parts, that is why I left them til the last. This week I

will give you Floral:

1-Begonias, 3 blooms floating in water; 2-Dahlias, cactus, 3 blooms; 3-Dahlias, large, 3 blooms; 4-Dahlias, pompom petite, 5 blooms; 5 to 10-Gladioli, 1 spike, colors white, yellow, pink, red, dark, mauve; 11-Gladioli one spike any other colour; 12-Gladioli, 5 spikes any colour; 13-Gloriosa Daisy, 5 stems; 14 Lily, any variety, 1 stem; 15-17-Marigolds, large mum, French medium & petite; 18-20-Petunias, double, single, ruffled; 21-Pansies; 22-Phlox; 23-Snapdragon; 24-Sweet Peas; 25-Zinnias; cactus; 26-Zinnias, dahlias; 27-Zinnias, pompom; 28-Any annual not listed above, named; 29-Any perennial not listed, named; 30-Best flower to be shown as such.

Potted plants - 31-Double African Violets; 32-Single African Violets; 33-Fibrous Begonia; 34-Gloxinia in bloom; 35-Geranium in bloom; 36-Impatiens plant in bloom; 37-Upright Tuberous Begonia; 38-Any house plant not listed above.

Miscellaneous - 39-Cor-sage for brides mother; 40-Arrangement of weeds, mixed; 41-Novelty flower arrangement for 10 year old boy; 42-Bridesmaid nosegay shades of pink, rose and white flowers; 43-Dining table display not over 8" high.

Specials - 44-Candle arrangement, yellow & gold flowers; 45-Peppermint stick colours, an arrangement of pink and/or red and white garden flowers; 46-Rainbow Charm for coffee table; 47-Hanging pot display in bloom; 48-Hanging pot display of greenery.

That my friends is the floral and I hope you have some flowers at the Fair. Crack the salads to the family, as it is too hot for heavy meals; do hope they like salads as much as I do. Adios and take care now. Don't work too hard.

The fit never quit.

Maple lake

from page 11
trip to Moosonee. These voyagers will certainly have some interesting pictures and accounts of their journey to relate when they return the last week in May.

Mr. & Mrs. Harry Davis were surprised by friends and relatives on the occasion of their thirty-fifth wedding anniversary on Wednesday, the 15th of May. Harry and Irene recalled that their wedding was originally planned to take place in St. Peter's Church, Maple Lake, but due to transportation difficulties during World War II, it was decided to hold the wedding in the Church of the Redeemer situated at Avenue Road and Bloor St. W.

We join in wishing Harry and Irene many more years of happiness.

By the looks and sounds of the traffic on St. Peter's Rd. and Hwy. 530, Friday P.M. and Saturday A.M., every cottage will be filled for the first long summer weekend. Let's hope for good weather.

Don't forget about the Bishop and Mrs. Marsh evening at St. Peter's Church, Thursday evening, May 25 - a short service from 7:30-8:00 P.M. followed by slides and commentary on their work in Canada's North - "The Yukon." Everyone is welcome. Callers at the Gibbs home this week were Bob Gray of Don Mills, his sister Pat Compo of Soo, also Doris and Richard McCann of Agincourt. Miss Georgina Mahaffey is spending the long holiday weekend with Ada & Wilbert Gibbs.

The Bishop & Mrs. Marsh night on, "The Yukon", hosted by St. Peter's Church last Thursday, May 25, was very well attended both by local and summer residents. The pictures of Yukon resi-

dents, their activities, their homes and their villages and cities were most interesting, showing how different their way of life is from ours. In Mrs. Marsh's commentary Cont'd. page 16

Smiley

from page 5
trained for.

Maybe my son Hugh had some psychic foresight. He took off for Paraguay, as a Ba-hai pioneer, three years ago, and is living happily, hand to mouth, without having to go through the humiliating search for a way to put food in his mouth.

Max Braithwaite, whose Why Shoot the Teacher has

been made into a popular movie, perhaps should have stuck a "not" into his title.

Shoot the poor young devils and put them out of their misery. Or shoot a bunch of us old codgers with our stale ideas and antiquated teaching methods, and give the jobs to the young ones.

Anybody got a job for my kid?

Municipality of Dysart et al

NOTICE

IN THE MATTER OF THE MUNICIPAL ACT AND IN THE MATTER OF A PROPOSED BYLAW OF THE MUNICIPALITY OF DYSART ET AL TO STOP UP CLOSE AND CONVEY A PORTION OF PART OF LOT 20, CONCESSION 11 IN THE TOWNSHIP OF HARCOURT, IN THE PROVISION COUNTY OF HALIBURTON.

NOTICE IS HEREBY GIVEN, pursuant to Chap. 284 Sec. 443 of the Municipal Act as amended, that the Township Council of the Municipality of Dysart et al proposes to consider and if deemed advisable, to pass at its regular meeting to be held at the Council Chambers, Haliburton, Ontario on Monday, June 12, 1978, a Bylaw to Close, Stop up and Convey the following:

ALL AND SINGULAR that certain parcel or tract of land and premises, situate, lying and being in the Township of Harcourt, in the Provisional County of Haliburton, being composed of Part of Lot 20, Concession II, in the said township, and which said parcel or tract of land is more particularly described as follows:

PREMISING that the bearings herein are astronomic, derived from the North Westerly limit of Part I, Expropriation Plan registered as Instrument Number 68889, having a bearing of North 36 degrees 07 minutes 40 seconds East and referred to the meridian through the South East corner of Lot 22, Concession II, Township of Harcourt.

COMMENCING at an iron bar in the Southerly limit of the old County Road Number 10 which is distant 2072.42 feet measured on a course of South 46 degrees 33 minutes 43 seconds East from the North Westerly angle of said Lot 20;

THENCE North Easterly along a curve to the left having a radius of 768.51 feet, an arc distance of 107.71 feet and having a chord equivalent of 107.62 feet when measured on a course of North 24 degrees 20 minutes 10 seconds East, to an iron bar in the Northerly limit of the Old County Road Number 10;

THENCE Westerly along the various courses of the aforesaid Northerly limit to a point where the same is intersected by the Westerly limit of said Lot 20;

THENCE Southerly along the aforesaid Westerly limit to a point where the same is intersected by the Southerly limit of the Old County Road Number 10;

THENCE Easterly along the various courses of the aforesaid Southerly limit to the Point of Commencement WHICH SAID parcel or tract of land may be further illustrated, shown outlined in red on a sketch by H.C. Bishop, O.L.S., dated August 31, 1974 (addition April 6, 1978) and which sketch is available for inspection at the Municipality of Dysart et al office, Haliburton, Ontario.

AND TAKE FURTHER NOTICE that before passing the said Bylaw at its meeting to be held at the time and place above mentioned the Township Council of the Municipality of Dysart et al shall then and there hear in person or by his Counsel, Solicitor or Agent, any person who claims that his land will be affected by the said Bylaw and who applies to be heard.

DATED AT HALIBURTON, ONTARIO this 12th day of May, 1978.

Maple Lake

from page 12
we were one with the Marsh's throughout their period of service in that vast area. The work of the Bishop wasn't always easy, but with a help mate, such as Mrs. Marsh, who worked with the children teaching and guiding them, many a rough assignment was made less difficult. They thoroughly enjoyed their 3 years there. Following the slides, St. Peter's ladies served refreshments downstairs.

While here, the Bishop and his wife were entertained by the Clarence Redners and the John Barclays. The Barclays kindly gave our honoured guests the use of their cottage on the Maple Lake shore. Being avid bird watchers and bringing their own canoe for that purpose, they spent much of their free time paddling through Maple & Grass Lake areas. Friday evening, at 8:50, the Marsh's appeared at my door, having crossed the lake in the twilight. After a ten minute stay they set out across the lake to the northeast shore to the cottage. Being experienced canoeists, the deepening night didn't alarm them, and as they drew near the cottage, their voices could be heard

making "A joyful noise unto the Lord." We hope to have another visit from the Marsh's, if all is well, perhaps in two years time.

The sound of wedding bells can be heard today when Brenda Cook is being united in holy matrimony with Dan Harding. I understand the wedding service is being held in the Century United Church at the head of Maple Lake. Both participants being local young folk, we are really interested in their welfare, and the whole community joins in wishing Dan and Brenda every happiness in their life together. Congratulations, Dan, in winning such a fine help mate.

A number from here attended the choir concert in the Hyland Crest Home last Tuesday evening and thoroughly enjoyed every number. Under the capable direction of Marilyn Stouffer, this choir can go a long way. Among the interesting extra numbers sang during the evening was a lovely duet "In the Garden of my Heart" rendered by Mr. & Mrs. Clark of our own St. Peter's Road. Piano selections by famous composers were also part of the evening's programme, by one of the choir members, Maggie Milne.

Gems of Truth

from page 9
fied Jesus would forgive them and bestow on them the gift of the Holy Ghost.

Here, repentance and baptism were the conditions laid down, in order to receive the indwelling presence of the Holy Spirit. Previously, on that same day, He had been received upon a period of waiting and praying. Those recipients were, however, all Jewish believers, as we have stated before.

Some time after this occasion, Philip went down to the Samaritans. Here, the believers did not receive the Holy Spirit upon repenting and being baptized. Not, until the Jewish brethren, Peter and John, came down

from Jerusalem, and prayed for them, and laid their hands on them, did they receive the Holy Ghost (Acts 8:14-17).

These Samaritans were not Jews, and did not belong to the circumcision. They were rather, a despised people among Israel, who were classed as dogs, because of their half Jewish blood relation. This barrier had to be broken down. Therefore, it was not until Peter and John ministered unto them, that the Holy Spirit knitted these Samaritans into the same body of believers.

Without a doubt, this was a stepping-stone into the fuller revelation of the Holy Spirit. God had revealed His plan.

die and George Robertson.
